P.O. Box 752  
Breckenridge, Texas

Dear Mr. Elliott:

We enclose two copies of Order R-1204 issued June 18, 1958, by the Oil Conservation Commission in Case 1449, which was heard on May 28th at Santa Fe before an examiner.

Please note that this order requires that each meter installed in the subject system shall be tested for accuracy at intervals and in a manner satisfactory to the Commission. It will be necessary for you to run a series of tests of sufficient duration to determine that the meters are functioning properly immediately following installation. Thereafter tests should be made at intervals not to exceed one month and a report of said calibration filed with the Commission. The meters shall be calibrated against a master meter or against a test tank of measured volume.

Very truly yours,

A. L. Porter, Jr.  
Secretary - Director
