P.O. Box 828
Santa Fe, New Mexico

Dear Mr. Seth:

On behalf of your client, Tidewater Oil Company, we enclose two copies of Order R-1208 issued June 18, 1958, by the Oil Conservation Commission in Case 1466, which was heard on June 11th at Santa Fe before an examiner.

Please note that this order requires that each meter installed in the subject system shall be tested for accuracy at intervals and in a manner satisfactory to the Commission. It will be necessary for Tidewater to run a series of tests of sufficient duration to determine that the meters are functioning properly immediately following installation. Thereafter tests should be made at intervals not to exceed one month and a report of said calibration filed with the Commission. The meters shall be calibrated against a master meter or against a test tank of measured volume.

Very truly yours,

A. L. Porter, Jr.
Secretary - Director
