TIDEWATER OIL COMPANY

PROPOSED LACT INSTALLATION

Coates "C" Lease, Justis (Ellenburger) Field

Lea County, New Mexico

CASE #1466- Exhibit No. 2

The New Mexico Oil Conservation Commission
107 Mabry Hall
Santa Fe, New Mexico

Gentlemen:

We have been informed that Tidewater Oil Company plans to request approval of an Automatic Custody Transfer installation on its Coates "C" Lease, Justis (Ellenburger) Field, Lea County, New Mexico. It is our understanding that Tidewater intends to utilize a positive displacement meter installation with automatic sampling equipment to account for crude oil produced and transferred to the pipeline gathering system from the Ellenburger horizon.

Please be advised that Texas New Mexico Pipe Line Company, as the gatherer of crude from the Coates "C" Lease, has no objection to the installation of the Automatic Custody Transfer facilities proposed by Tidewater Oil Company.

Respectfully yours,

TEXAS NEW MEXICO PIPE LINE COMPANY
