MAIN OFFICE OCC Roswell, New Mexico
July 23, 1958

1958 JUL 25 AM 9:03 File: F-638-986.510.1

Subject: Request For Hearing
To Commingle Production
USA-Malco Refineries "A",
"B", "C" and "D" Leases,
Empire-Abo Field,
Eddy County, New Mexico.

New Mexico Oil Conservation Commission (3)
P. O. Box 871
Santa Fe, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

As discussed by Mr. W. J. Cooley and Mr. D. R. Currens in a telephone conversation today, we are sending the accompanying plats so that they may be attached to our application of July 21, 1958, File: F-636-986.510.1, for a hearing to commingle production from the subject leases.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION

C. L. Kelley

PAN AMERICAN PETROLEUM CORPORATION

MAIN OFFICE
Roswell, New Mexico

1958 JUL 21 1958

File: F-636-86.510.1

Subject: Request For Hearing To
Commingle Production
USA-Malco Refineries "A",
"B", "C" and "D" Leases,
Empire-Abo Field,
Eddy County, New Mexico.

New Mexico Oil Conservation Commission (3)
P. O. Box 871
Santa Fe, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Pan American Petroleum Corporation respectfully requests an Examiner Hearing for the purpose of obtaining an order to permit oil produced from the following leases all located in Eddy County, New Mexico, to be commingled into common tankage. The leases, designated as "A", "B" and "C", are actually the same basic lease which is comprised of the N/2 and SW/4 of Section 11. The lease designated as "D" is a separate basic lease and is comprised of the E/2 of Section 10.

USA-Malco Refineries "A" Lease - Section 11, T-18-S, R-27-E
USA-Malco Refineries "B" Lease - Section 11, T-18-S, R-27-E
USA-Malco Refineries "C" Lease - Section 11, T-18-S, R-27-E
USA-Malco Refineries "D" Lease - Section 10, T-18-S, R-27-E.

At present there are four wells completed in the Abo formation in Section 11 and one well drilling to the Abo in Section 10. These wells are located as follows:

Section 11, T-18-S, R-27-E

USA-Malco Refineries "A" No. 1 - 660' from N, 1980' from W
USA-Malco Refineries "B" No. 1 - 1980' from N, 660' from W
USA-Malco Refineries "B" No. 2 - 660' from N and W
USA-Malco Refineries "C" No. 1 - 660' from N and 1980' from E

Section 10, T-18-S, R-27-E

USA-Malco Refineries "D" No. 1 - 660' from N, 560' from E

July 21, 1958

Production from each individual well will be separately metered by use of positive volume meters before it is run into common storage with production from other wells. The meters to be used in this arrangement will be periodically calibrated and tested to insure that accuracy is maintained. Production from all wells will be checked each day by actual storage measurements and these measurements will be compared with the individual meter readings as an additional confirmation of meter accuracy. Comparison of these measurements will insure that each interest owner is properly credited with his proportionate share of production.

The accompanying plat shows the acreage involved in this application.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION

ROSWELL DISTRICT OFFICE	

August 8, 1958

Pan American Petroleum Corporation
Box 899
Roswell, New Mexico

Attention: Mr. C. L. Kelley

Gentlemen:

Your letter of July 17, 1958, requests approval to commingle oil produced from your Abo formation wells on leases Las Cruces 065478(b) and 067858 in sections 10 and 11, T. 18 S., R. 27 E., N.M.P.M., Eddy County, New Mexico.

You advise that the individual wells will be metered separately before being run into common storage and also that approval will be necessary from the New Mexico Oil Conservation Commission.

We have no objection to the method you have proposed. Our requirements are that the production from each lease be continuously metered separately and that the necessary approval be obtained from the New Mexico Oil Conservation Commission.

Very truly yours,

EDWIN M. THOMASSON
Acting Oil and Gas Supervisor
