Attention: Mr. E. Y. Wilder

Administrative Order PC-349

Gentlemen:

Reference is made to your application dated May 17, 1968, for administrative approval of an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of Corbin-Queen and Maljamar Grayburg-San Andres production on your Wyatt A Lease which comprises the S/2 S/2 of Sections 33 and 34, Township 17 South, Range 33 East and all of Section 5, Township 18 South, Range 33 East, Lea County, New Mexico, allocating the production on the basis of periodic well tests. It is our understanding that the production from both pools on said lease is of marginal nature.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner, provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," and provided further, that you shall notify the Commission at such time as any well in either of the aforesaid pools is capable of top allowable production.

Commission Order No. R-1279, dated November 5, 1958, which authorized the commingling of production from the Wyatt Nos. 1, 2, 3, and 6 Wells on this lease is hereby put in abeyance.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director

JUL 20 1968

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico

Gentlemen:

Cities Service Oil Company proposes to commingle the oil production of Wyatt #4 with the production from Wyatt A #1, 2, 3 and 4.

Wells #1, 2 and 6 are producing from the Corbin Queen Pool and wells #3 and 4 are producing from the Maljamar Grayburg-San Andres Pool. New Mexico Oil Commission Order R-1279 authorizes commingling of wells #1, 2 and 6 with #3. Cities Service Oil Company requests that either the above order be amended to include well #4 or a new order be issued to include all the wells for commingling.

Wyatt A wells #1, 2, 3, 4 and 6 are marginal wells which are currently producing 17 BOPD. It is proposed that allocation of production be done by well tests. The ownership in the wells is the same in both zones and attached are the approvals of the royalty owners, the crude oil transporter and the gas purchaser. Also attached is the following data: 60 day average production, gravity of oil, value of oil, combined gravity of oil and combined value of oil.

Very truly yours,

CITIES SERVICE OIL COMPANY

E. Y. Wilder
District Superintendent

Attention: Mr. E. Y Wilder

Gentlemen:

Your letter of April 24 requests approval to commingle Queen production from well No. 4 with presently commingled Queen and Grayburg-San Andres production from wells Nos. 1, 2, 3, and 6, lease Las Cruces 062391.

The method of commingling described is hereby approved.

You are requested to notify our Hobbs office when the installation is completed so that a field inspection of the system can be made.

Sincerely yours,

Carl C. Traywick

Gentlemen:

Cities Service Oil Company proposes to commingle the oil production of Wyatt A #4 with the production from Wyatt A #1, 2, 3 and 6.

Wells #1, 2 and 6 are producing from the Corbin Queen Pool and wells #3 and 4 are producing from the Maljamar Grayburg-San Andres Pool. New Mexico Oil Commission Order R-1279 authorizes commingling of wells 1, 2 and 6 with well #3.

Wyatt A wells #1, 2, 3 and 6 are producing 14 BOPD and the Wyatt A well #4 is producing 3 BOPD. By commingling the production from the above wells, lower operating and maintenance costs will occur, which will extend the life of the wells and will be advantageous to all participating parties. The production will be allocated by well tests.

New Mexico Oil Conservation Commission Rule 309-8(4) requires notification of our intent to commingle to all parties with an interest in the lease. It further states that if no objection is received to the proposal within a period of 20 days, the Commission will grant administrative approval.

If you have no objection to granting approval of the application for commingling of production, we would appreciate your signing one copy of this letter and returning it at your earliest convenience. A self-addressed envelope is enclosed.

Very truly yours,

CITIES SERVICE OIL COMPANY
