DOCKET: EXAMINER HEARING FEBRUARY 25, 1959

Oil Conservation Commission 9 a.m., Mabry Hall, State Capitol, Santa Fe

The following cases will be heard before E. J. FISCHER, Examiner:

- CASE 1604: Application of Atlantic Refining Company to commingle the production from several separate oil pools. Applicant, in the above-styled cause, seeks an order authorizing it to commingle the production from the Drinkard, Fusselman, Blinebry and any other pool or pools encountered in the Justis Field which produces oil of similar quality on its Carlson Federal Lease comprising the N/2 SW/4 of Section 25, Township 25 South, Range 37 East, Lea County, New Mexico. Applicant proposes to separately meter the production from each zone prior to commingling.
- CASE 1605: Application of Rice Engineering and Operating, Inc. for an order authorizing a salt water disposal well on an unorthodox location. Applicant, in the above-styled cause, seeks an order authorizing the disposal of produced salt water through its E-M-E SWD Well No. H-20 to be located 2475 feet from the North line and 165 feet from the East line of Section 20, Township 20 South, Range 37 East, Lea County, New Mexico. Applicant proposes to inject the produced salt water into the San Andres formation in the interval from 4450 feet to 5000 feet.
- CASE 1606: Application of El Paso Natural Gas Company for an oil-gas dual completion. Applicant, in the above-styled cause, seeks an order authorizing the dual completion of its Huerfano Unit Well No. 104 located in the SE/4 SE/4 of Section 17, Township 26 North, Range 10 West, San Juan County, New Mexico, in such a manner as to permit the production of oil from an undesignated Gallup oil pool and the production of gas from an undesignated Dakota gas pool through parallel strings of 2" tubing.
- CASE 1607: Application of Standard Oil Company of Texas for approval of a unit agreement. Applicant, in the above-styled cause, seeks an order approving its Bogle Flats Unit Agreement embracing 5,280 acres, more or less, of federal and state lands in Township 22 South, Range 23 East, Eddy County, New Mexico.
- CASE 1608: Application of Nearburg & Ingram for approval of a unit agreement. Applicant, in the above-styled cause, seeks an order approving its Square Lake Deep Unit Agreement embracing 4,317 acres, more or less, of federal lands in Townships 16 and 17 South, Range 30 East, Eddy County, New Mexico.

CASE 1609: Application of Continental Oil Company for an oil-gas dual completion. Applicant, in the above-styled cause, seeks an order authorizing it to dually complete its Warren Unit Well No. 10 located 660 feet from the North line and 2310 feet from the East line of Section 28, Township 20 South, Range 38 East, Lea County, New Mexico, in such a manner as to permit the production of oil from the Warren-Blinebry Gas Pool and the production of gas from the Warren-Tubb Gas Pool through parallel strings of 2" tubing.

Re: Square Lake Deep Unit  
Square Lake Area  
Eddy County, New Mexico  
No. 14-08-001-6024 New Mexico

Dear Sir:

O

The subject unit which embraces 4,316.93 acres, more or less, was originally approved by the Secretary of the Interior on March 6, 1959, with Hearburg & Ingram, a partnership comprised of Eugene E. Hearburg and Tom L. Ingram, designated as Operator. Subsequently by indenture dated April 1, 1959 and approved April 17, 1959 by R. H. Lyddan, Acting Director of the United States Geological Survey, Tennessee Gas Transmission Company assumed Hearburg & Ingram's rights and obligations as Operator of the subject unit.

P

This unit was also approved by the Oil Conservation Commission of the State of New Mexico under Order No. R 1345, Case No. 1608, dated March 2, 1959.

Please consider this letter as application for termination of the subject unit in its second extended term on April 15, 1961.

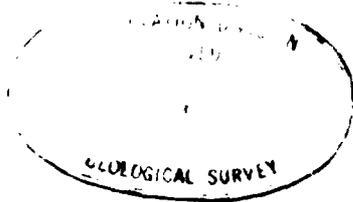

Y

Order No. R 1345, Case No. 1608, evidencing approval of the subject unit by the Oil Conservation Commission of the State of New Mexico does not require approval of the Commissioner upon termination of the unit; however, it does require notification of same in writing. By copy of this letter, we are so advising that agency of our application for termination and will further advise them upon final approval of such termination.

As your records will reflect, our first extension of this unit was granted upon request by Tennessee Gas Transmission Company dated December 16, 1959 and was approved February 10, 1960 as a six months extension expiring August 16, 1960. Subsequently upon request again by Tennessee Gas Transmission Company dated June 27, 1960 and approved July 22, 1960, a second extension was granted for a period of eight months expiring April 15, 1961.

Prior to the first extension request, Tennessee Gas Transmission Company as Unit Operator spudded the No. 1 Square Lake Deep Unit well located 1980 feet from the south line and 1830 feet from the east line of Section 33, Township 16 South, Range 30 East, and thereby diligently executed the drilling of said well to 12,480 feet. During the course of drilling this well, ten (10) drill stem test were conducted ranging from 4,469 feet to total depth of which none resulted in the testing of commercial production. The top of the Devonian was the primary objective and was encountered at 12,097 feet according to the electric log and this section was thoroughly tested with negligible results. The well was subsequently plugged and abandoned on August 15, 1959. There has been no further drilling on the Square Lake Deep Unit. Our original request for extension of the term of the unit was based on additional seismic work which was to be conducted. This seismic program was commenced on January 18, 1960 by Robert H. Ray, Inc. under contract to Tennessee. Said program was completed on March 2, 1960 at a cost of \$18,268. Additional developments in the area prompted our second request on June 27, 1960 for further extension of the subject unit. The reasons for this request were explained in detail in our letter of that date; however, the reasons for the request for the second extension are summarized as detailed subsurface study.

To date, the drilling of the above mentioned well, additional seismic work and additional detailed subsurface study have not resulted in productive indications favorable to additional drilling in the area of the unit. For these reasons we respectfully request that the subject unit be terminated on its expiration date, April 15, 1961.

As of this date, we are forwarding letters to all working interest owners under this unit for their execution evidencing their consent to the termination of the subject unit. Copies of these letters will be forwarded to you as soon as same are available.

In addition to the termination of this unit, we respectfully request decisions extending all Federal oil and gas leases within the boundaries of this unit for a period of two years from the termination date thereof.

As a matter of information, effective March 1, 1961 all oil and gas properties of this nature which were in the name of Tennessee Gas Transmission Company were transferred to Tennessee Gas Corporation as will be evidenced in the Bureau of Land Management's files in Santa Fe, New Mexico. Additionally, all rights such as rights under Operating Agreements,

Gentlemen:

Pursuant to your letter of May 4, 1961, returned herewith is the original and four copies of our application dated April 13, 1961 whereby this Company as Operator of the subject Unit requests termination of same in its second extended term April 15, 1961.

Also attached are numerous copies of letters executed by all of the working interest owners under the subject Unit, with the exception of Yates Bros. and Dixon & Yates Oil Company, evidencing their consent to the termination of the subject Unit as prescribed. The working interest owners represented by the attached letters aggregate more than the required 75 per cent necessary to effect the subject termination.

If any further information or details are required, please advise and we will endeavor to comply.
