Attention: Mr. A. L. Porter

RE: Walker "A" Lease  
(Maljamar Yates Pool)  
Lea County, New Mexico

Gentlemen:

As per our telephone conversation today with Mr. Joe Ramey with the Oil Conservation Commission in Hobbs, New Mexico, we honorably request permission to commingle our No. 3-G Walker located in the Maljamar Yates Pool with our present wells No. 1 and No. 2 that are producing from the Pearsall zone. The combined production of these three wells is less than 400 barrels per month, or 13-1/3 barrels per calendar day. This request is for the primary purpose of eliminating the necessity of setting additional storage. The storage now consists of two-210 barrels tanks. Sincerely hope this will be sufficient information for being granted a hearing. If so, would appreciate being advised at the earliest possible time the date of hearing.

Very truly yours,

ROY H. SMITH DRILLING COMPANY
