Dear Mr. Wade:

Reference is made to your request for administrative approval of an exception to the no-flare provision of Order No. R-1427 for four Texaco oil wells in the Bisti-Lower Gallup Oil Pool.

After studying your application, the Commission has determined that administrative approval can be granted for only one of these wells, that being the Navajo Allottees "T" No. 1, from which the gas production is too small to measure. Administrative Order NFO 459 has been issued for this well and you should receive it shortly.

The requested exception for the remaining three wells will be set for hearing before the Commission on January 13, 1960. It would be helpful if your witness in this case is prepared to testify concerning the present casing-head gas production from these three wells and the disposition thereof.

Very truly yours,

A. L. PORTER, Jr.
