SANTA FE, NEW MEXICO

*Case  
2042*

July 15, 1960

**Texasco Inc.  
P. O. Box 352  
Midland, Texas**

**Attention: J. G. Blevins, Jr.**

**Gentlemen:**

Reference is made to your letter of June 30, 1960, containing an application for permission to commingle the Crossroads-Devonian production and undesignated Mississippian production from your U. D. Sawyer lease, and for administrative approval to utilize your Devonian LACT system to handle this commingled production.

We cannot approve automatic custody transfer systems administratively, nor can we extend approval of an existing system to cover the production from another pool except after notice and hearing.

It will be necessary to docket a hearing on your request that Order No. R-1608 be amended to authorize your LACT system to handle the commingled Devonian and Mississippian production.

It would be possible to authorize the commingling portion of your request administratively, but such authorization would be of no use to you unless it was accompanied by authority to handle this commingled production by way of your LACT system.

Unless we hear from you to the contrary, we will docket your application for an examiner hearing to be held in Santa Fe on August 10, 1960.

Very truly yours,

OLIVER E. PAYNE  
General Counsel
