Re: Triple Completion in
Section 22-25N-4W and
Section 27-25N-4W

Gentlemen:

Since El Paso Natural Gas Company has no interests in zones below the Mesaverde formation in these sections, we have no objection to your triple completion of these wells.

Please note under No. 5 of the Application for Triple Completion that the offset operator should be listed as El Paso Natural Gas Company, P. O. Box 990, Farmington, New Mexico, instead of El Paso Natural Gas Products Company.

Very truly yours,

D. N. Canfield

Dear Sirs:

Enclosed are two applications of Continental Oil Company for triple completions. If at all possible, we would like to have these applications scheduled for hearing on the same day inasmuch as the same witness will testify for both applications, and we would like to consolidate the testimony for the two applications.

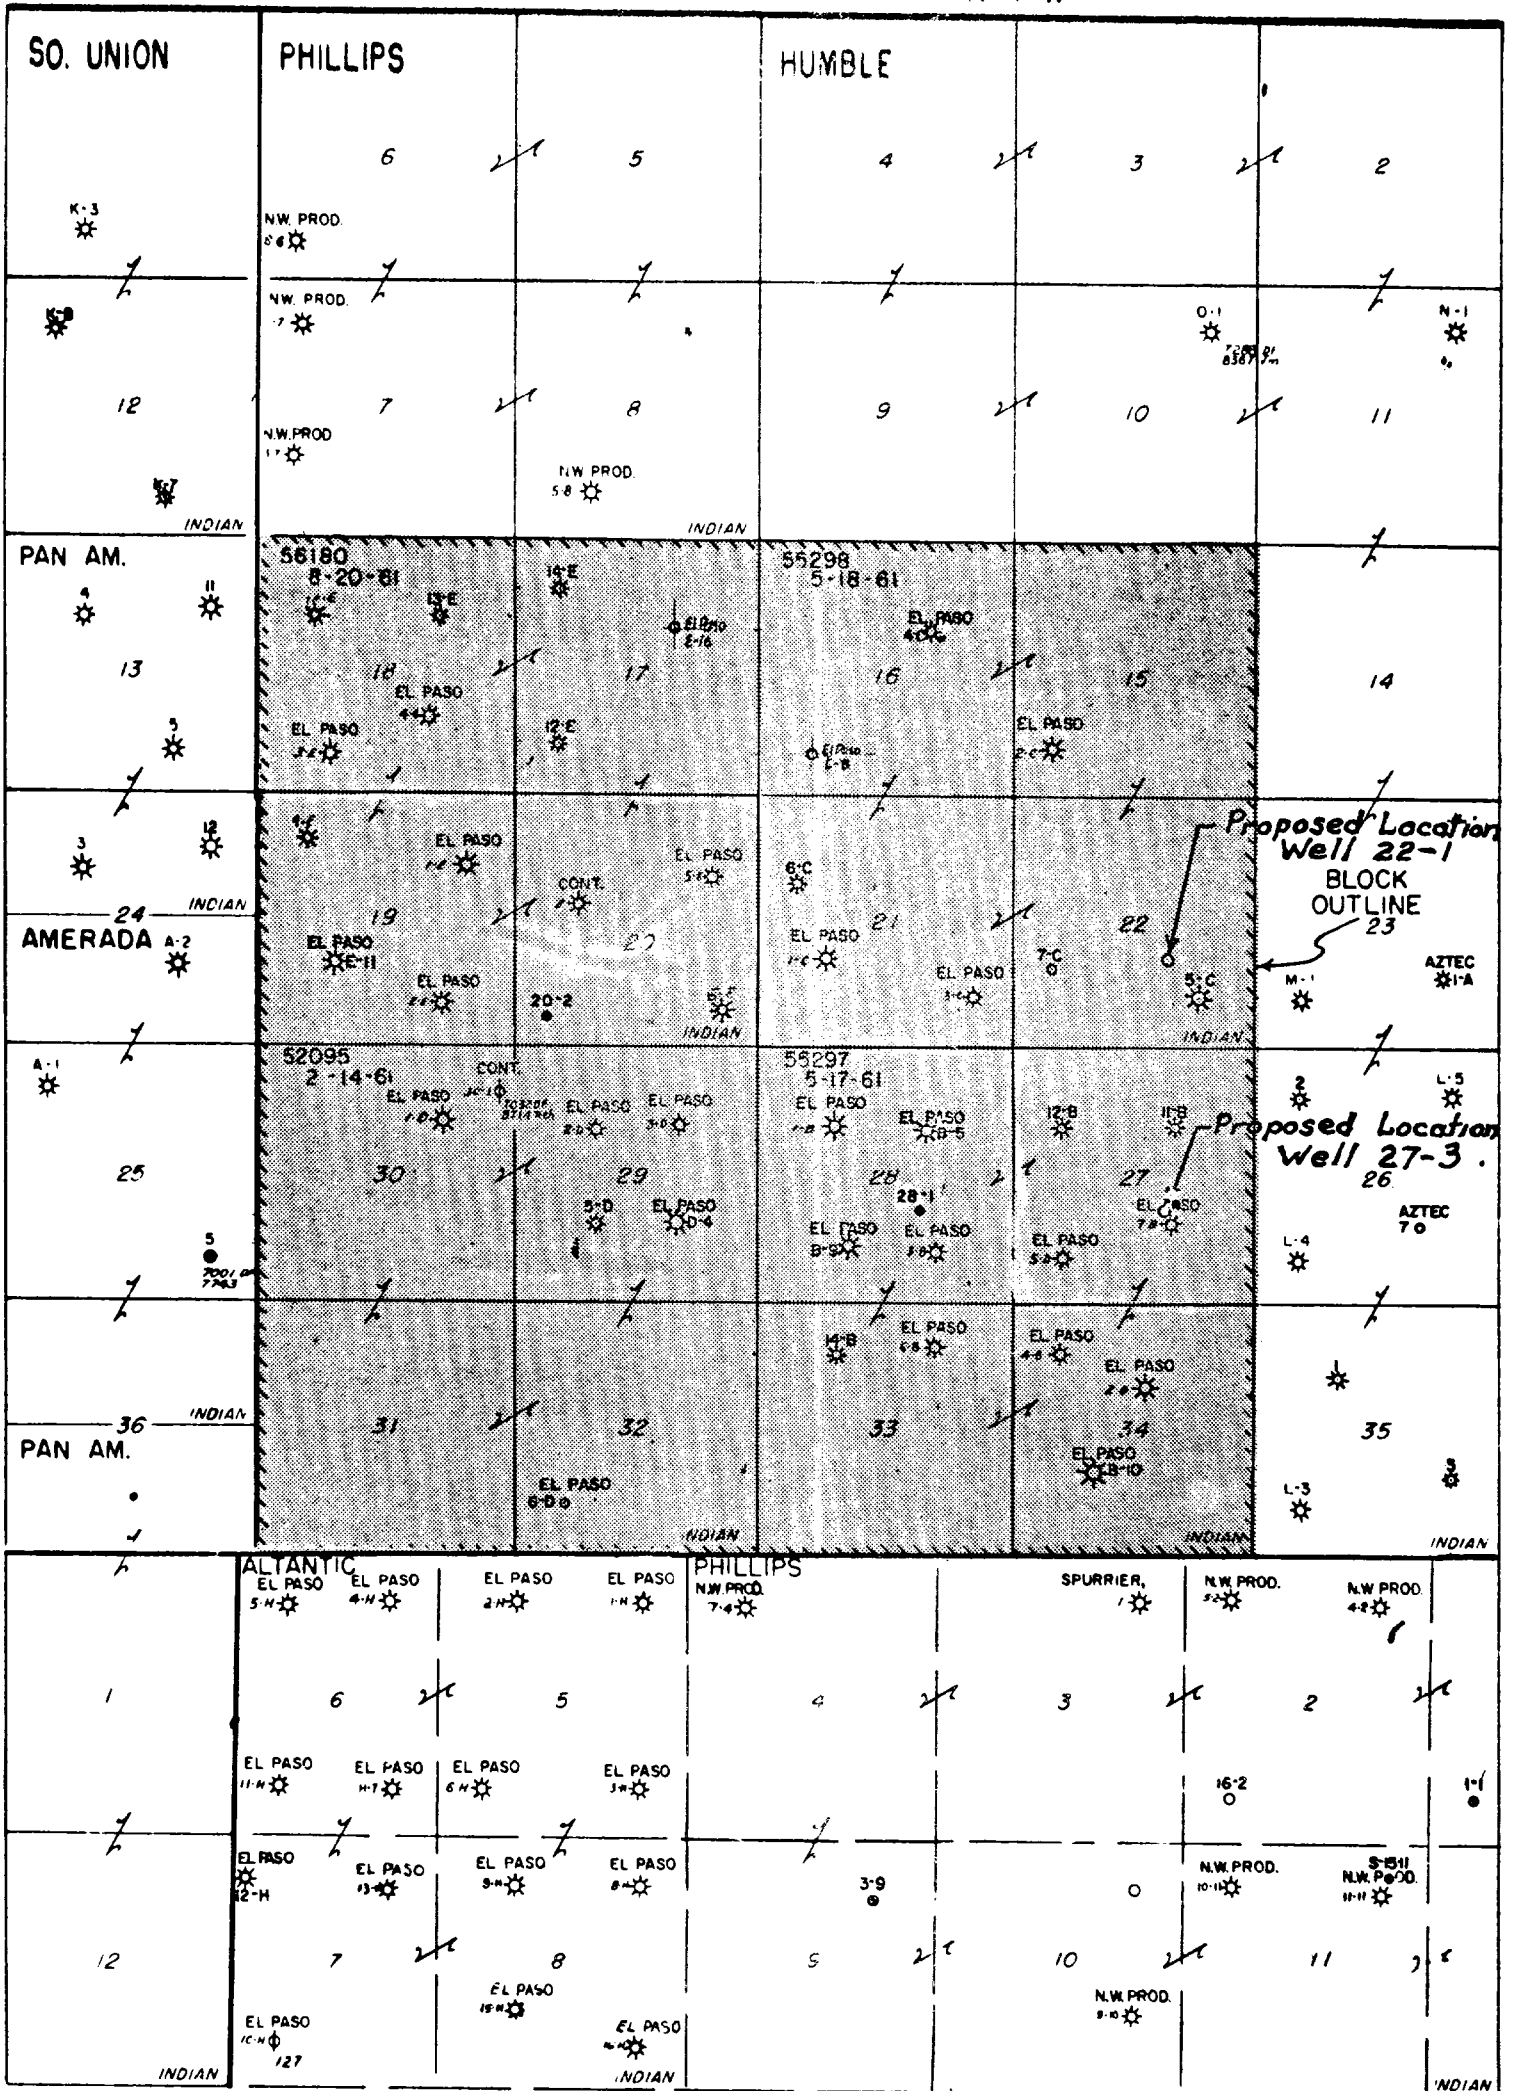

Very truly yours,

William M. Griffith
