Postoffice Box 847
Roswell, New Mexico

Dear Mr. Ingram:

We have checked your plans for the subject LACT and wish to advise you that the Service Pipe Line Company is agreeable to receiving oil with this type automatic custody transfer installation.

It will be necessary to install the back pressure valve ahead of the prover tank connection so the meter can be proved at operating pressure. The prover tank should be piped so the charge pump can empty the tank and not discharge through the meter.

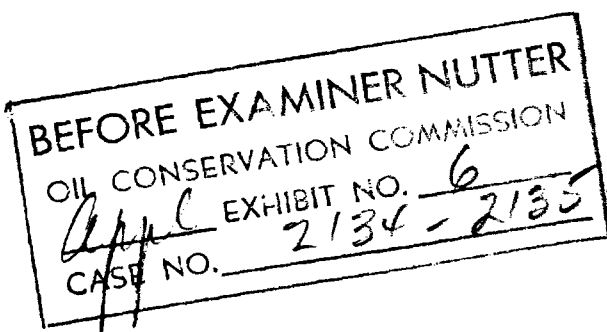

Please advise this office at your earliest convenience the scheduled date for installing this LACT.

If we can be of any further assistance, please feel free to call on us.

Yours very truly,

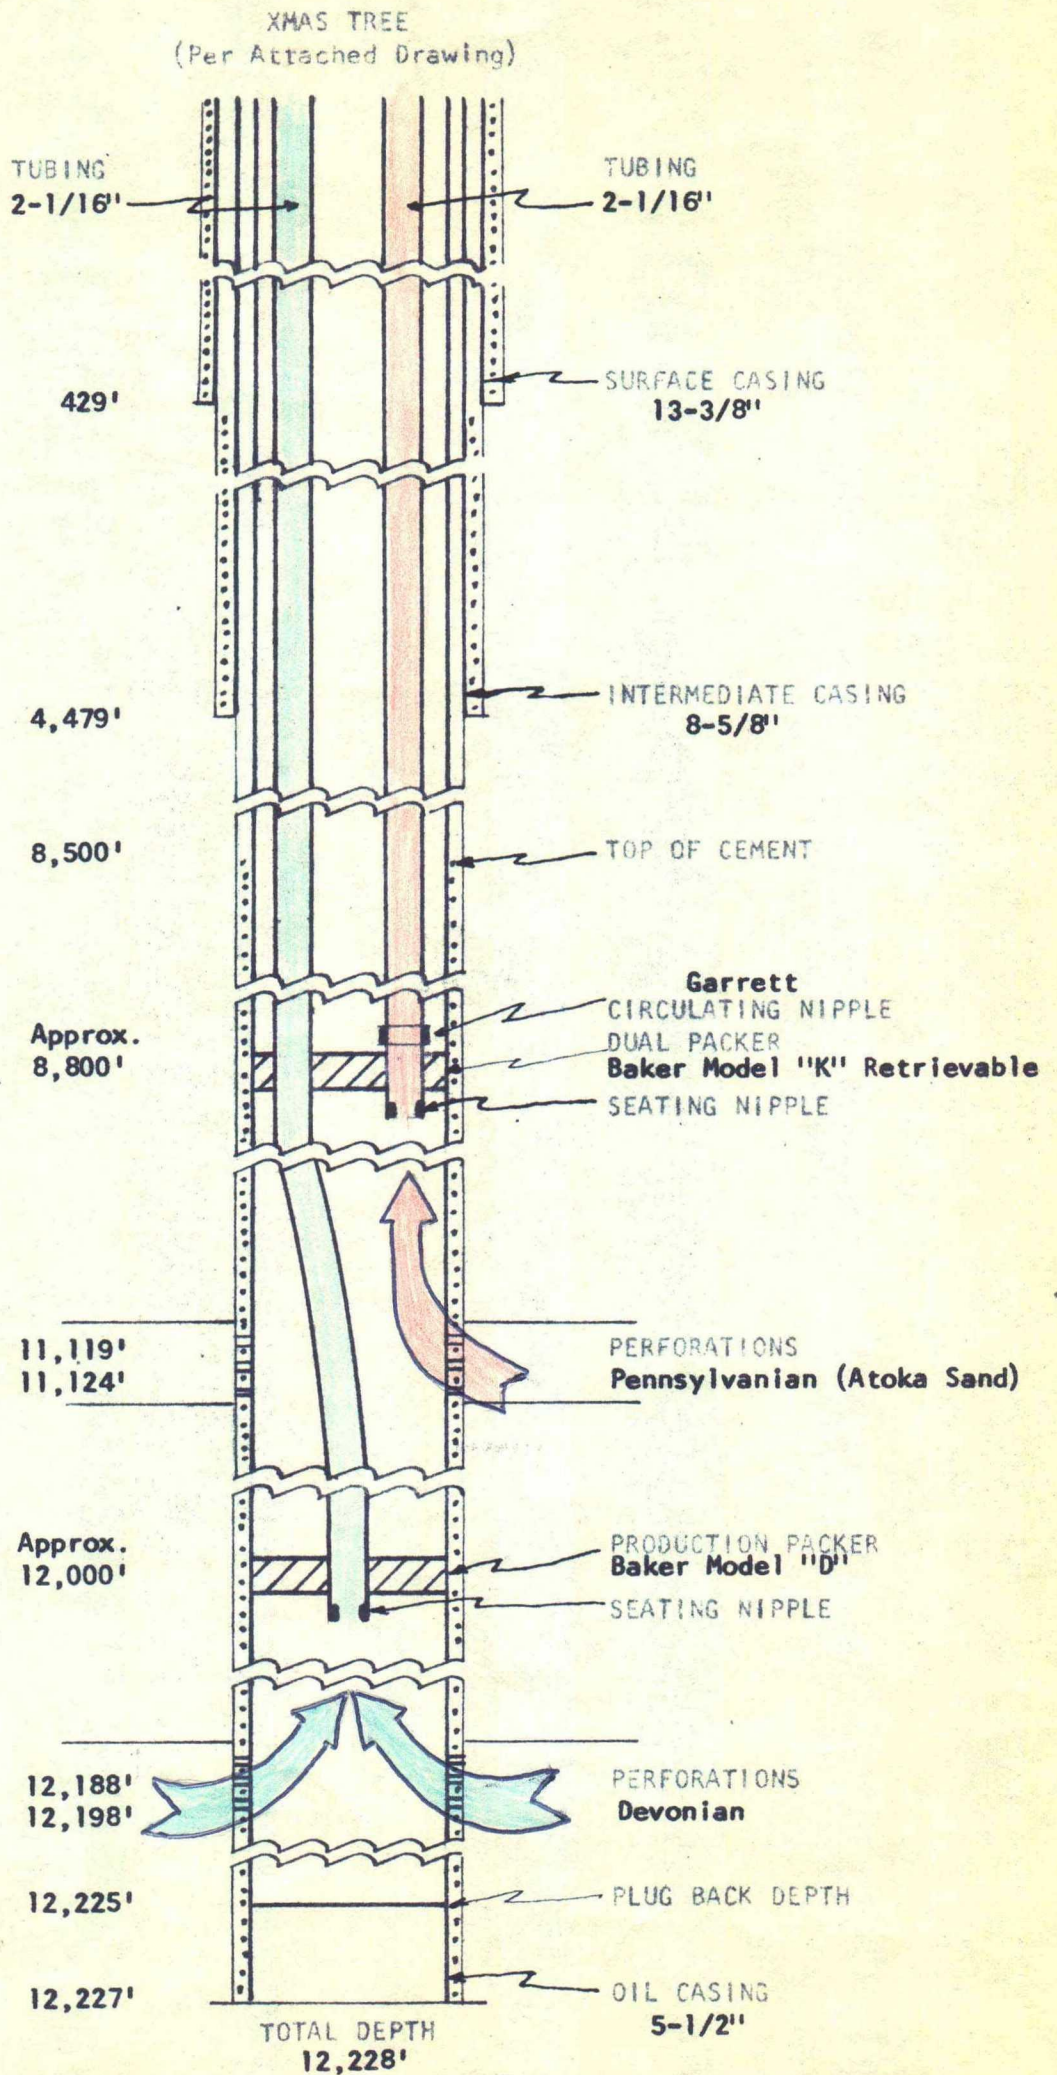

C. F. Sines
