Gentlemen:

In support of this request we should like to point out that the proposed unit conforms with the requirements of said Rule 5(c) in all respects as follows:

1. Said proposed unit consists of less than 640 acres.
2. Said proposed non-standard gas proration unit consists of contiguous quarter-quarter sections.
3. Said proposed non-standard gas proration unit lies wholly within a single governmental section.
4. The entire proposed non-standard gas proration unit may be reasonably presumed to be productive of gas from the Jalmat Pool.
5. The length or width of said unit does not exceed 5,280 feet.
6. Copies of this application have been furnished this date by registered mail to all offset operators and all operators within 1,500 feet of said well, as required by the provisions of said Rule 5(c).

A plat is attached hereto showing to the best of our knowledge and belief the proposed unit, the location of the No. 2 well and other wells on the lease, offset wells and ownership thereof.

Said well was completed on March 4, 1948, and therefore is eligible for the tolerance permitted in Rule 5(b) of the special pool rules for the Jalmat Pool of Order No. R-1670.
