Mr. Daniel S. Nutter
Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Nutter:

Enclosed for your information is the most recent catalog of PSI Division Baker Oil Tools, Inc. You will find descriptive information on the PSI Type "S" Sliding Sleeve and its accessory Type "SYE" Separation Sleeve commencing on Page 6.

These are the PSI tools referred to in Case 2716, Application of Markham, Cone & Redfern for parallel tubing strings dual completion of their Eubanks Well No. 3.

You will note from the tabulated data on Page 8 of the catalog that, for 2 1/16-inch tubing, the Type S Sliding Sleeve is available in four different sizes. Each size has a different internal bore so as to receive the appropriate Type "SYE" sleeve. Thus, where it is desired to provide more than one side door in one tubing string, these tools provide the desired flexibility.

The "SYE" Separation Sleeve may be used to seal off a leaking S Sleeve; or, the mandrel of the SYE sleeve may be drilled so as to develop the equivalent of a side door choke. This latter is the application desired for the PSI assembly in the stub or Blinebry Oil tubing string for Eubanks No. 3 and shown on Exhibit No. 2, Case 2716.

We hope that the foregoing comments and the enclosed catalog will answer any questions you may have had on the PSI Sleeves or "side doors" referred to in Case 2716.

Yours very truly,

L. O. Storm

Re: Case 2716

Dear Mr. Nutter:

Enclosed please find two copies of the electrical log of Markham, Cone & Redfern Eubanks No. 3 showing pertinent correlation and casing perforation data. This information is in support of our application for dual completion of Eubanks No. 3 which is scheduled for Examiner Hearing January 3, 1963, as Case 2716.

Yours very truly,

L. O. Storm

Dear Mr. Storm:

We are in receipt of your application for administrative approval of the multiple completion of Markham, Cone & Redfern's Eubank Well No. 3, dated November 16, 1962.

Inasmuch as the proposed completion and method of operation is some what unique, it is our belief that this application should be set for hearing. Accordingly it has been placed on our docket for 9:00 A.M. December 6, 1962.

Very truly yours,

Daniel S. Nutter
Chief Engineer

Gentlemen:

Attached is a copy of application to the New Mexico Oil Conservation Commission for an administrative order authorizing dual completion of Markham, Cone & Redfern Eubanks Well No. 3. This well is located in Unit K of Section 14, T-21-S, R-37-E, NMPM, Lea County, New Mexico.

It is our intention to abide by the 20-day waiting period prescribed in the Commission regulations for the handling of multiple completion applications under administrative procedure. However, we shall be pleased to answer any question you may have regarding this application.

Yours very truly,

Markham, Cone & Redfern
