Re: White Ranch Well #1, Unit C,  
Sec. 7-T119-224N, Chaves  
County, N.M.

Dear Mr. Robertson:

On September 2, 1939, our field man, Bill Gressett, inspected the above captioned well. He found this well has not been plugged as yet. We would like for you to plug it at once.

Please notify us when you are ready to commence this work as we wish to witness the job.

We also need five (5) copies of C-105, Well Log.

Very truly yours,

M. L. Armstrong  
Supervisor, District No. 2

405 Robertson Bldg.  
Wichita Falls, Tex.

Re: White Ranch #1, Unit C, Sec. 7,  
T11S, R27E, Chaves County, N.M.

Dear Mr. Robertson:

In reply to your letter of September 12, stating you have not officially abandoned the above captioned well, we received form C-103 on August 8, 1960 stating just how you plugged this well - 15 sack plug at T.D., 15 sack plug at 250', 5 sack plug at surface with mud laden fluid between plugs.

This plugging program was approved by M. L. Armstrong on April 11, 1960.

Please read Rule 202 in the State Wide Rules & Regulations. (C) of rule 202 reads "When drilling operations have been suspended 60 days, the well shall be plugged and abandoned unless a permit for temporary abandonment has been obtained from the Commission".

On the last visit to your leases, there wasn't any location signs on your wells.

Please take care of this matter at once.

Very truly yours,

M. L. Armstrong  
Supervisor, District No. 2

Artesia, New Mexico

Attention: Mr. M. L. Armstrong

Dear Mr. Armstrong:

In answer to your letter dated December 11, 1962, this is to inform you that Fred M. Allison could not reach a satisfactory agreement with C. T. Robertson on the wells in the Coyote Queen Pool in Chaves County, New Mexico.

We had these wells shutin October 1, 1962 and they were turned back to C. T. Robertson, therefore, we feel that he is responsible for making the necessary reports and etc.

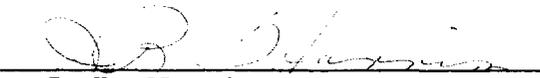

We only operated these wells two months, August and September, 1962. There was 370 barrels of oil on hand for the three Honolulu State "A" wells and 108 barrels for the three Honolulu State "B" wells when they were shutin October 1, 1962.

If this is not satisfactory or if you desire, we will file reports showing shutin date and status of wells on C-115 report.

Yours very truly,

FRED M. ALLISON

Dear Dick:

This is the status of the following wells.

Herschell L. Copelan, 10754 $\frac{1}{4}$  Wilshire Boulevard, Las Angeles, California.

#1 Pan American St. C-27-11-27  
5 $\frac{1}{2}$ " x 2" swedge with 2" valve on top, no equipment on location. Tank battery location about 3-400' SW of well, no tanks, drain pit fenced.

#1 State of NM L-27-11-27, tubing open at top, plugs out of tubing head on both sides, no equipment on location. Drain pit about 200' S of well, no tanks, pit fenced.

Steinberger Drilling Co. Box 1137, Roswell, New Mexico

#2 White Ranch J-34-10-27, Casing open at surface, no equipment on location. A few broken pump jack weights and thread protectors (rod-tubing & 4 $\frac{1}{2}$ " casing) on location.

M. R. Voltz, 1002 West Wall, Midland, Texas

#1 Kenneth Barbee I-9-11-25  
Well has a pump jack, no motor. Polish rod rusty, tank battery has 2-210 B tanks some oil in both tanks, drain pit not fenced, very small amount of oil in it.

R. L. Lusk, Jr. 121 West Walnut, Roswell, New Mexico

Gulf State H-17-10-27, Hole covered with dirt just a small low place to show where well is. Pit not filled, no equipment on loc.

-2-

Mr. Dick Morris

Tank has been moved out, it had some oil in it, they let it run down the road, both ruts of road full of oil for about 200'.

M. G. Peters, Box 902, Roswell, New Mexico

#1 Gulf State H-17-10-27  
5 Gallon can in top of hole (not plugged), small pit not filled.

Bill A. Shelton 734 Petroleum Bldg. Roswell, New Mexico

#1 Wells 1650/S 990/W 8-10-25  
Pit not filled, looks like a thread protector in top of hole, few rods on location.

M. G. Peters, Box 902, Roswell, New Mexico

#1 Hightower St. 0--16-10-25  
Hole is covered with dirt, only thing on location is set of skids for pumping unit, at tank battery location 1 settling tank only. Pit not fenced, a few joints of 2" line pipe on location. Part of flow line not up.

Very truly yours,

Oil Conservation Commission

Re: C. T. Robertson Wells in  
Coyote Pool, Chaves County.

Dear Sir:

These wells were inspected July 25, 1962:

✓ Magnolia State Well #1 in Unit P, Sec. 11-T11-27.  
This well was temporarily abandoned February 27, 1961.  
Status of well at present time: Has a swedge nipple with  
valve screwed into casing, there isn't any other equipment  
on location, should be plugged and location cleaned.

*#4 was never drilled "G" is all there is in the hole.*

C. T. Robertson Honolulu State B#4, Unit A, Sec. 11-T11-27.  
This well was never drilled, but a pit was dug.  
All this needs is the pit filled.

C. T. Robertson Honolulu State #5, Unit H, Sec. 11-T11-27.  
This well was never drilled, but a pit was dug.  
All this well needs is the pit filled.

C. T. Robertson Honolulu State A#4, Unit F, Sec. 14-T11-27.  
This well has the tubing in it. I believe it was an input  
well when he was trying to flood the lease, but I think it  
should be plugged if Allison isn't going to take it over.

-2-

Mr. James M. Durrett

C. T. Robertson White Ranch #1, Unit C, Sec. 7-T11-28.  
This well is plugged o.k., Form # 103 signed July 26, 1962.

Jim, I believe you have given them the plugging program.

Very truly yours,

Re: Well Plugging - C. T. Robertson

Dear Mr. Robertson:

Thank you for your letter of July 17, 1962.

Please be advised that Mr. M. L. Armstrong, District Supervisor, Oil Conservation Commission, Artesia, New Mexico, has now informed us that a regulation marker has been erected on your White Ranch Well No. 1, located in the NE/4 NW/4 of section 7, Township 11 South, Range 28 East, it is satisfactorily plugged and we have received Form C-163 concerning the same. Therefore, please disregard my letter of July 17, 1962, inasmuch as it applies to this well.

Also, please be advised that we have not received reports from Mr. Fred M. Allison of Midland, Texas, concerning the following wells:

- (1) ~~Maple State~~ "B" well No. 4, located in the SW/4 NE/4 of section 11, Township 11 South, Range 27 East. *H-11-27*
- (2) ~~Maple State~~ "B" well No. 5, located in the SW/4 NE/4 of section 11, Township 11 South, Range 27 East. *H-11-27*
- (3) ~~Maple State~~ well No. 1, located in the SE/4 SE/4 of section 11, Township 11 South, Range 27 East. *H-11-27*
- (4) ~~Maple State~~ well No. 4-A, located in the SE/4 NW/4 of section 11, Township 11 South, Range 27 East. *H-11-27*

If you will advise us of Mr. Allison's address, we will contact him and request that he inform us of his intentions concerning

State of New Mexico Oil Conservation Commission  
Artesia, New Mexico

Attention: Mr. M. L. Armstrong

Dear Mr. Armstrong:

We have Mr. James M. Durrett's letter to Mr. C. T. Robertson dated August 3, 1962 advising that he had not received the reports concerning the following wells:

1. Honolulu State "B" Well No. 4, located in the SW/4 NE/4 of Section 11, Township 11 South, Range 27 East.
2. Honolulu State "B" Well No. 5, located in the SE/4 NE/4 of Section 11, Township 11 South, Range 27 East.
3. Magnolia State Well No. 1, located in the SE/4 SE/4 of Section 11, Township 11 South, Range 27 East.
4. Honolulu State Well No. 4-A, located in the SE/4 NW/4 of Section 14, Township 11 South, Range 27 East.

*Robertson  
just  
C-110  
C-110*

We are enclosing Forms C-110 on the following:

1. Magnolia State Well No. 1, located in the SE/4 SE/4 of Section 11, Township 11 South, Range 27 East.
2. Honolulu State Well No. 4-A, located in the SE/4 NW/4 of Section 14, Township 11 South, Range 27 East.

Mr. M. L. Armstrong  
August 16, 1962

We have talked with Mr. Robertson regarding the Honolulu State 'B' Well No. 5, located in the SE/4 NE/4 of Section 11, Township 11 South, Range 27 East, and he advised that he will have the pits filled around this well but if he does not, we will do so.

He also advised that the Honolulu State 'B' No. 4 well, located in the SW/4 NE/4 of Section 11, Township 11 South, Range 27 East, was drilled by someone else and he had nothing to do with this well.

Mr. Durrett, Jr. also advised that he does not have a bond that had been proved by the Commission. We are enclosing a photostatic copy of Mr. Allison's blanket bond covering operations in New Mexico.

If further information is needed, please advise.

Yours very truly,

FRED M. ALLISON

Re: C. T. Robertson and Fred M. Allison  
Well Plugging, Chaves County, New Mexico

Dear Mose:

I am now preparing to make a demand on Fred M. Allison and C. T. Robertson to plug the wells in the Coyote-Queen Pool that they have been transferring back and forth during the past few months. However, I am not certain that my file is completely accurate as to which wells they should plug. I have, therefore, had our file clerk make a list of the wells in this area that are operated under the name of Allison and a list of the wells that are still operated under the name of Robertson. Our records show that the following wells are operated under the name of Fred M. Allison:

1. Honolulu State Well No. 1, Unit D, 14-11-27
2. Honolulu State Well No. 2, Unit C, 14-11-27
3. Honolulu State Well No. 3, Unit E, 14-11-27
4. Honolulu State Well No. 4, Unit F, 14-11-27
5. Honolulu State Well No. 5, Unit D, 14-11-27
6. Honolulu State B Well No. 1, Unit I, 11-11-27
7. Honolulu State B Well No. 2, Unit O, 11-11-27
8. Honolulu State B Well No. 3, Unit J, 11-11-27

I have, therefore, had our file clerk make a list of the wells in this area that are operated under the name of Allison and a list of the wells that are still operated under the name of Robertson. Our records show that the following wells are operated under the name of Fred M. Allison:

1. Honolulu State Well No. 1, Unit D, 14-11-27
2. Honolulu State Well No. 2, Unit C, 14-11-27
3. Honolulu State Well No. 3, Unit E, 14-11-27
4. Honolulu State Well No. 4, Unit F, 14-11-27
5. Honolulu State Well No. 5, Unit D, 14-11-27
6. Honolulu State B Well No. 1, Unit I, 11-11-27
7. Honolulu State B Well No. 2, Unit O, 11-11-27
8. Honolulu State B Well No. 3, Unit J, 11-11-27

O  
P  
Y

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

-2-

January 14, 1963

Mr. M. L. Armstrong

Our records also reflect that the following two wells are still operated under the name of C. T. Robertson:

*State Lease  
B-8385-2*

Honolulu State B Well No. 4, Unit G, 11-11-27

Honolulu State B Well No. 5, Unit H, 11-11-27

Mose, please check your records to see if the above list is correct as far as the name of the operator. If the above list is correct, please advise me as to which wells you feel should be plugged and forward a plugging program for them. I will then make a demand upon Robertson, Allison, and their respective bonding companies. Also please let me know if either operator has other wells that need to be plugged that we have missed. I will hold my demand letters until I hear from you.

Very truly yours,

JAMES M. DURRETT, Jr.,  
Attorney

JMD/esr

*This list of wells are correct according to my files. The C T Robertson wells # 4 & 5 was not drilled but the pits were dug. All he needs to do is haul the pits. All of the Allison wells should be plugged. as they havnt produced for some time, In fact they never did produce very much.*

Well Plugging, Cheaves County, New Mexico

Gentlemen:

Pursuant to information furnished us by Mr. H. L. Armstrong, District Supervisor, Oil Conservation Commission, District No. II, Artesia, New Mexico, we hereby make demand upon you to plug the following-described wells in accordance with the minimum plugging requirements set out below.

1. Nonoleum state well No. 1, located in Unit D, 660 feet from the North line and 330 feet from the West line of section 14, Township 11 South, Range 27 East, N29W, Cheaves County, New Mexico.
2. Nonoleum state well No. 2, located in Unit C, 330 feet from the North line and 1650 feet from the West line of section 14, Township 11 South, Range 27 East, N29W, Cheaves County, New Mexico.

3. Honolulu State Well No. 3, located in Unit E, 1650 feet from the North line and 330 feet from the West line of Section 14, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
  4. Honolulu State Well No. 4, located in Unit F, 1650 feet from the North line and 1650 feet from the West line of Section 14, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
  5. Honolulu State Well No. 5, located in Unit E, 990 feet from the North line and 990 feet from the West line of Section 14, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
  6. Honolulu State "B" Well No. 1, located in Unit I, 2310 feet from the South line and 990 feet from the East line of Section 11, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
  7. Honolulu State "B" Well No. 2, located in Unit O, 990 feet from the South line and 2310 feet from the East line of Section 11, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
  8. Honolulu State "B" Well No. 3, located in Unit J, 2310 feet from the South line and 2310 feet from the East line of Section 11, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
  9. Magnolia State Well No. 1, located in Unit P, 990 feet from the South line and 990 feet from the East line of Section 11, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.

All of the above wells must be plugged with a 25-sack cement plug at total depth, a 20-sack cement plug at approximately 250 feet, and a 5-sack cement surface plug. Mud weighing not less than 10 pounds per gallon must be placed between each plug and a regulation steel marker must be set in the surface cement.

1. Honolulu State "B" Well No. 4, located in Unit G, 1650 feet from the North line and 2310 feet from the East line of Section 11, Township 11 South, Range 27 East, BHPM, Chaves County, New Mexico.
2. Honolulu State "B" Well No. 5, located in Unit H, 1650 feet from the North line

and 990 feet from the east line of Section  
11, Township 11 South, Range 27 East, 28th,  
Chaves County, New Mexico.

The pits on the above two well locations must be  
levelled.

All of the above requirements must be completed on or before  
April 1, 1963. Mr. Armstrong must be contacted and must be given  
an opportunity to witness the plugging of each well as it is being  
accomplished.

We have been advised that a dispute exists between Mr. Robertson  
and Mr. Allison concerning the title to the above wells. We will be  
happy to arrange a conference between the parties, their attorneys,  
and the Commission staff to discuss this matter. If you desire a  
conference, please advise us of the date that would be most conven-  
ient to you. As the plugging must be completed by April 1, 1963,  
the conference should be held no later than March 15, 1963.

Please contact me if you desire further information concerning  
this matter.

Very truly yours,

Dear Howard:

I notice that we neglected to enclose with the copy of our demand letter a copy of the letter in our file from C. T. Robertson concerning the transfer to Fred M. Allison. I therefore am enclosing the same herewith. Our records reveal Fred M. Allison as the operator of the first nine wells listed in my demand letter. C. T. Robertson is still the operator of the last two wells. I will let you know if Mr. Robertson contacts us requesting a conference.

Please advise me if you need any additional information from our files, or if I can be of any further help to you.

Very truly yours,

Mr. C. T. Robertson  
1331 Lake Drive  
Fort Lauderdale, Florida

Dear Mr. Robertson:

Enclosed herewith are New Mexico Oil Conservation Forms C-110 transferring change of operator from Fred M. Allison to C. T. Robertson. These forms cover the following described leases and wells:

1. Honolulu State B #1
2. Honolulu State B #2
3. Honolulu State B #3
4. Honolulu State A #1
5. Honolulu State A #3
6. Honolulu State A #4 - Water Injection Well
7. Honolulu State A #5
8. Honolulu State #2
9. Magnolia-State #1

all in the Coyote Queen field, Chaves County, New Mexico.

We furnished you with these forms to be filed with the Oil Conservation Commission October 23, 1962. As of this date, the forms have not been executed by you and the Commission still shows Fred M. Allison as being the operator.

Mr. C. T. Robertson  
February 4, 1963

We have been advised by the Commission to furnish you with these forms again transferring the wells back to you as the operator. We were also advised that you do have a plugging bond in the State of New Mexico.

We received a letter dated January 30, 1963 from the Oil Conservation Commission. A copy of this letter was mailed to your office in Wichita Falls, Texas and is self-explanatory.

As you know, we did not purchase these properties from you but we did spend several thousand dollars trying to see if these properties were valuable enough to negotiate a sale between you and Mr. Allison. Since these properties were not producing and the wells did not have an allowable, we had to file forms showing that we would be the operator in order to test the wells.

We only agreed to operate these properties for a few months to see if it would be economical to purchase them from you. After a few months, we found it would not be profitable for Mr. Allison to make this purchase. Since we do not own any interest in these properties, would you please sign the enclosed forms transferring these properties from Fred M. Allison back to C. T. Robertson as owner and operator. After you have executed all the enclosed forms, forward them to the Oil Conservation Commission, Artesia, New Mexico to the attention of Mr. M. L. Armstrong. We are also enclosing an addressed envelope to the Oil Conservation Commission for your convenience.

Please give this matter your immediate attention.

Yours very truly,

FRED M. ALLISON

Re: Your File - S-425082  
Principal - C. T. Robertson  
Obligee - State of New Mexico

Dear Mr. Schalow:

Thank you for your letter of February 14, 1963.

Please be advised that in July and August of 1962, Mr. Fred M. Allison filed Forms C-110 with the Commission for the first nine wells listed in my demand letter of January 30, 1963. These forms stated that there had been a change in ownership and operator from C. T. Robertson to Fred M. Allison. Mr. Allison has subsequently advised us that the purchase from Mr. Robertson was not consummated and that Mr. Robertson refused to convey title to the wells in question. For this reason I stated in my letter of January 30, 1963, that we would be happy to arrange a conference between the parties, their attorneys, and the Commission staff, if desired. We still are willing to do so.

I cannot assure you, at this time, that the Commission considers Mr. Allison and his surety company to be substituted for Mr. Robertson and your company insofar as liability for plugging these nine wells. This will have to be determined by the Commission after a proper hearing. However, it is my understanding that Mr. Allison is willing to plug the wells in question if Mr. Robertson will convey title to these wells to him. If a settlement is not reached between the parties and the wells are not properly plugged on or before April 1, 1963, the Commission will docket a case to determine the matter.

Dear Mr. Durrett:

S-425082  
Principal - C. T. Robertson  
Obligee - State of New Mexico

Thank you for your letter dated January 30, 1963. We are currently checking into this matter with our principal, Mr. C. T. Robertson.

In reviewing the file we obtained the impression that a Mr. Fred Allison and his surety company were substituted for any liability on behalf of Mr. Robertson and our company. If we are incorrect in this assumption, we would appreciate any clarification. In any event, we would appreciate full and complete information as to the obligation of Mr. Allison and the United States Fidelity and Guarantee Company and how it effects any obligation of our company, as well as our principal. After we have received full and complete information in regard to this matter, we will be more than happy to discuss same with you.

We do wish to state that it is not the obligation of our company to plug any wells in question but only to make payment for the cost of same in the event Mr. Robertson is unable to do so. Since our bond is one of indemnity only, we are unable to make any commitment at this time as to the plugging of the wells or the payment thereof until we have made a full and complete investigation.

We wish to thank you for your courtesy and cooperation and wish to advise you that we will offer any and all cooperation in attempting to get this matter satisfactorily concluded in regard to all parties.

Very truly yours,

Re: Well Plugging - C. T. Robertson

Dear Mr. Robertson:

Thank you for your letter of July 17, 1962.

Please be advised that Mr. M. L. Armstrong, District Supervisor, Oil Conservation Commission, Artesia, New Mexico, has now informed us that a regulation marker has been erected on your White Ranch Well No. 1, located in the NE/4 NW/4 of section 7, Township 11 South, Range 28 East, it is satisfactorily plugged and we have received Form C-103 concerning the same. Therefore, please disregard my letter of July 17, 1962, inasmuch as it applies to this well.

Also, please be advised that we have not received reports from Mr. Fred M. Allison of Midland, Texas, concerning the following wells:

- (1) Honolulu State "B" Well No. 4, located in the SW/4 NE/4 of section 11, Township 11 South, Range 27 East.
- (2) Honolulu State "B" Well No. 5, located in the SE/4 NE/4 of section 11, Township 11 South, Range 27 East.
- (3) Magnolia State Well No. 1, located in the SE/4 SE/4 of section 11, Township 11 South, Range 27 East.
- (4) Honolulu State Well No. 4-A, located in the SE/4 NW/4 of section 14, Township 11 South, Range 27 East.

If you will advise us of Mr. Allison's address, we will contact him and request that he inform us of his intentions concerning

the above wells and file Forms C-110 for change of ownership with the Commission. Until Mr. Allison has filed a bond that has been approved by the Commission and the Commission has approved Forms C-110, we cannot release you from liability for proper plugging of the subject wells. As these wells have been abandoned for a considerable length of time, my demand letter of July 17, 1962 will have to remain in full force and effect. In accordance with my letter of July 17, 1962, if the requirements concerning these wells are not completed on or before September 1, 1962, we will be forced to take appropriate legal action to assure plugging the same.

Re: Well Plugging - C. T. Robertson

Dear Mr. Robertson:

Thank you for your letter of July 17, 1962.

Please be advised that Mr. M. L. Armstrong, District Supervisor, Oil Conservation Commission, Artesia, New Mexico, has now informed us that a regulation marker has been erected on your White Ranch Well No. 1, located in the NE/4 NW/4 of Section 7, Township 11 South, Range 28 East, it is satisfactorily plugged and we have received Form C-103 concerning the same. Therefore, please disregard my letter of July 17, 1962, inasmuch as it applies to this well.

Also, please be advised that we have not received reports from Mr. Fred M. Allison of Midland, Texas, concerning the following wells:

- (1) Honolulu State "B" Well No. 4, located in the SW/4 NE/4 of section 11, Township 11 South, Range 27 East.
- (2) Honolulu State "B" Well No. 5, located in the SE/4 NE/4 of section 11, Township 11 South, Range 27 East.
- (3) Magnolia State Well No. 1, located in the SE/4 SE/4 of section 11, Township 11 south, Range 27 East.
- (4) Honolulu State Well No. 4-A, located in the SE/4 NW/4 of section 14, Township 11 South, Range 27 East.

If you will advise us of Mr. Allison's address, we will contact him and request that he inform us of his intentions concerning

the above wells and file Forms C-110 for change of ownership with the Commission. Until Mr. Allison has filed a bond that has been approved by the Commission and the Commission has approved Forms C-110, we cannot release you from liability for proper plugging of the subject wells. As these wells have been abandoned for a considerable length of time, my demand letter of July 17, 1962 will have to remain in full force and effect. In accordance with my letter of July 17, 1962, if the requirements concerning these wells are not completed on or before September 1, 1962, we will be forced to take appropriate legal action to assure plugging the same.

Very truly yours,

JAMES M. DURRETT, Jr.,

Re: Case No. 2817  
Order No. R-2551

Gentlemen:

I am enclosing herewith a certified copy of Order No. R-2551 entered by the Commission in Case No. 2817.

Please note that the Commission has allowed Mr. Allison 90 days from the date of the order to have the wells producing or otherwise utilized in a manner approved by the Commission. Each well which is not producing or otherwise utilized in a manner approved by the Commission within 90 days from the date of the order must be plugged in accordance with the minimum plugging requirements set out in said order. The plugging must be completed on or before November 15, 1963, and Mr. Allison must notify the District Supervisor, District 2, Oil Conservation Commission, Artesia, New Mexico, of the exact time and date plugging operations on each well are to commence.

Please contact me if you desire additional information concerning this case.

Re: Coyote Queen Field  
Chaves County, New Mexico

Dear Sir:

It is our understanding that Mr. Dale Nichols has filed C 110 forms transferring change of operator from Fred M. Allison to Dale Nichols covering the following described leases and wells: Honolulu State "B" No. 1; Honolulu State "B" No. 2; Honolulu State "B" No. 3, Honolulu State "A" No. 1; Honolulu State "A" No. 3; Honolulu State "A" No. 4; Honolulu State "A" No. 5; and Honolulu State No. 2.

This letter is written on behalf of Mr. Fred M. Allison, who is presently out of the State, by the undersigned who are his attorney and office manager respectively, to inform the State Conservation Commission of New Mexico that Mr. Fred M. Allison claims no interest in the above mentioned wells, and he agrees that such forms may be filed and, in fact, requests that the Commission approve such forms and relieve him of any further interest or responsibility in such wells.

If such forms are approved, the undersigned would appreciate immediate notification of such fact.

Yours very truly,

FRED M. ALLISON

Re: Fred M. Allison Transfer  
to N. Dale Nichols

Dear Mose:

We have the C-110 forms and letter from Fred M. Allison's attorney and office manager concerning the Honolulu State "A" Wells Nos. 1, 2, 3, 4, and 5 and the Honolulu State "B" Wells Nos. 1, 2, and 3. This should be sufficient for our records.

If you have not done so, probably you should notify Mr. Allison's attorney that we have approved the C-110 forms. This will close the case concerning the Honolulu State wells.

Please notify us when the Magnolia State well is plugged or otherwise disposed of with your approval.

Very truly yours,

J. M. DURRETT, Jr.  
Attorney

Re: Case No. 2817, Order No. R-2551

Dear Mr. Allison:

As we have now received and approved C-110 forms transferring the ownership and operation of the Honolulu State "A" Wells Nos. 1, 2, 3, 4, and 5, and the Honolulu State "B" Wells Nos. 1, 2, and 3 to Dale Nichols, the provisions of Order No. R-2551 have been met insofar as these wells are concerned and no further action on your part will be necessary concerning these wells.

However, the provisions of Order No. R-2551 are still in full force and effect concerning the Magnolia State Well No. 1, located in Unit F of Section 14, Township 11 South, Range 27 East, NMPM, Chaves County, New Mexico, and this well must be returned to production or utilized in accordance with the provisions of said order or plugged in accordance with the terms of said order on or before November 15, 1963. If the well is to be plugged, the District Supervisor, District 2, Oil Conservation Commission, Artesia, New Mexico, must be notified of the exact time and date plugging operations are to commence.

Very truly yours,

J. M. DURRETT, Jr.  
Attorney

Re: Plugging Cases

Dear Mose:

Mr. Lake J. Frazier, Attorney at Law, 123 West Fourth, Roswell, New Mexico, is going to assist me with some of the Commission's legal work. I have turned the following cases over to Mr. Frazier:

Corine Foster  
Fred M. Allison  
Dwight L. Smith

Will you please check with Doyle Cole concerning the Corine Foster well and forward a copy of the plugging report to Mr. Frazier if plugging is completed. If the well is not yet plugged, please advise Mr. Frazier.

If the Fred Allison Magnolia State Well No. 1 is not plugged by November 15, 1963, please advise Mr. Frazier and he will take appropriate action.

I am enclosing herewith two Affidavits of Responsibility concerning conversion to a water well. Will you please contact the landowner in the Dwight L. Smith case and if he desires the well have him execute both copies of the affidavit, keep one for your file and forward one to Mr. Frazier. If the landowner does not desire to assume responsibility concerning the well, please advise Mr. Frazier and he will write a demand letter to the bonding company.

Very truly yours,

Dear Mr. Durrett:

I am advised by M. L. Armstrong of the Artesia office that the Corine Foster well plugging will begin this week; that the Fred M. Allison well has been plugged satisfactorily but he has not received Form C-103 so far, presumably because they have not cleaned up the location and that he will contact the land owner on the Dwight L. Smith well this week. The insurance agent advised that the land owner wants the well as a water well but doesn't want to sign the Affidavit of Responsibility.

Sincerely yours,

FRAZIER & CUSACK
