Re: Application of Gulf Oil Corporation for Approval of  
a Non-Standard 80-Acre Gas Proration Unit, Blinebry  
Gas Pool, Lea County, New Mexico

Gentlemen:

Gulf Oil Corporation respectfully requests approval of a Non-Standard 80-Acre Blinebry Gas Proration Unit covering the SE/4 SE/4 Section 28, and the NE/4 NE/4 Section 33, both in Township 21 South, Range 37 East, Lea County, New Mexico. This Non-Standard Unit is to be attributed to the J. N. Carson (NCT-C) Well No. 6.

In support of this application, the following facts are submitted:

- (1) Applicant's J. N. Carson (NCT-C) Well No. 6, located 330 feet from the south line and 965 feet from the east line of Section 28, is completed in the Blinebry Gas Pool and is assigned a Non-Standard 120-Acre Gas Proration Unit covering the E/2 SE/4 of Section 28 and the NE/4 NE/4 of Section 33 by Order No. R-1253 in Case No. 1506 dated September 29, 1958.
- (2) Applicant's J. N. Carson (NCT-C) Well No. 8, located 1980 feet from the south line and 990 feet from the east line of Section 28, has been completed as a Blinebry oil well.
- (3) The proposed Non-Standard Gas Proration Unit consists of contiguous quarter-quarter sections but does not lie wholly within a single governmental quarter section.
- (4) The entire Non-Standard Gas Proration Unit is reasonably presumed to be gas productive in the Blinebry Gas Pool.
- (5) The length or width does not exceed 2,640 feet.
- (6) All offset operators in the quarter sections in which the proposed Non-Standard Unit is located and within 1,500 feet of the unit well have been furnished a copy of this application.

April 18, 1963

In view of the fact that this request reduces the size of a Non-Standard Unit previously approved after Hearing, it is respectfully requested, if possible, that Administrative approval be given. If this is not possible, please set for Examiner Hearing at an early date.

Respectfully submitted,

GULF OIL CORPORATION

M. I. Taylor
