## MEMORANDUM TO PARTICIPANTS

Re: Dakota Proration Formula  
San Juan Basin, New Mexico

To keep you up-to-date on our application for the change in the Dakota formula, we have been granted a rehearing which was set for August 15, 1962. Due to conflicting dates, this hearing has now been moved to September 15. /3

We are preparing our own information and sincerely hope that all other interested companies will supply the necessary information for the reserve study required for a commission decision. We are confident that a study of all reserves in the San Juan Basin will support our position and feel that if we receive cooperation from the other companies we will ultimately gain a large portion of our goal.

For your further information, we are enclosing a copy of the Statehouse Reporting Service publication dated July 13, 1962.

  
Robert B. Tenison
