Re: Well Plugging - Chaves County, New Mexico

Dear Mose:

In accordance with my telephone conversation last week with Bill Gressett, we have docketed the following order to show cause plugging cases on the Examiner Hearing, October 24, 1962:

- (1) M. G. Peters Drilling Company, Gulf State Well No. 1, Section 17, Township 10 South, Range 27 East.
- (2) M. G. Peters Hightower State Well No. 1, Section 16, Township 10 South, Range 25 East.
- (3) R. L. Lusk, Jr., Gulf State Well No. 1, Section 17, Township 10 South, Range 27 East.

We have decided not to place the J. H. Reynolds Cannon Well No. 1-A on the docket as Bill advises that the only problem with the well is that they did not write the location on the marker and there is a great deal of doubt in my mind as to whether or not we can actually require them to do so.

I will try to get together with you prior to October 24th to discuss your testimony.

Dear Sir:

Please refer to Form C-102 dated November 3, 1960, regarding the above-captioned well. This Proposed Plan of Work states: 2' sack cement plug to be set at bottom; filled with heavy mud to 250 feet; Place a 10 sack plug at 250 feet, erect permanent marker with $\frac{1}{4}$ $\frac{1}{4}$ Sec-Township-Range; fill pits and clean location.

We have inspected this location a number of times and find that the above things have not been completed. There is no dry hole marker, the pits are not filled, and the tie-down stakes are still in the ground. Please get this done at once.

Dear Sir:

This will acknowledge receipt of forms C-103, C-104, and C-105 on the above-captioned well. Your C-101 (Notice of Intention to Drill) stated that you proposed to set the 4 1/2-inch casing with 175 sacks of cement. 3. Defendant denies the allegations of Paragraphs 7 and 8 of the Complaint, affirmatively alleging that the defendant has given substantial compliance to the Commission's Order.

AFFIRMATIVE DEFENSE

1. That the well in question has been plugged and all other work incident to the plugging thereof has been performed in accordance with the applicable Rules and Regulations of the Commission.
2. That the ministerial act of filing a formal plugging report has been delayed pending receipt of the necessary affidavits of those persons performing the plugging operations but that such evidence will be immediately forthcoming and the necessary instruments filed with the Commission within the immediate future.

3. That all of the necessary work has been performed to comply with the Commission's Order of November 6, 1962, including setting the regulation steel marker, and although the defendant has used due diligence in attempting to obtain the necessary affidavit from the person who conducted the actual plugging operations, such person resides at Midland, Texas, is not subject to the jurisdiction of this Court, and filing the necessary plugging report has been delayed pending its receipt, all without fault of the defendant.

WHEREFORE, defendant prays that this action be stayed pending filing of such instruments with the Commission as are necessary to meet its requirements, that upon filing thereof and inspection of the well site, if desired by the plaintiff that the Complaint be dismissed and that the Court enter such other and further orders in the premises as may be proper.
