Dear Jim:

In answer to your letter of December 5, 1962, the M. G. Peters Wells, Gulf State #1 and the Hightower State #1, these wells are now plugged. Howard Lobley has just come in from witnessing the plugging of the Gulf State. Hightower State #1 was plugged monday December 3, 1962 and was witnessed by Howard. We should receive C-103's in a few days. Howard was by the Lusk well today and there hasn't been anything done to it nor have I heard from him.

Very truly yours

OIL CONSERVATION COMMISSION

P.S.

Jim I talked with the Bonding Company that carries Wayne J. Spears Bond, and the only way they are going to plug them is for you to write them a letter giving them a deadline.
