Re: Kemnitz SWD #1-E, Sec 27, T16S, R34E  
Division Order R-3509

Dear Mr. Tipton:

We do not see a problem with the packer setting depth of 8765 feet in the above referenced salt water disposal well.

In an evaluation of the wells in the surrounding area, you are the Operator of the only wells with production from the Wolfcamp formation. Other wells in the area are producing from deeper formations.

We request that you write David Catanach at the Oil Conservation Division in Santa Fe, P. O. Box 2088, Santa Fe, New Mexico 87504-2088, requesting approval for the current packer setting depth.

We are enclosing a map of the area and information on the surrounding wells.

If you have any questions, please feel free to call.

Very truly yours

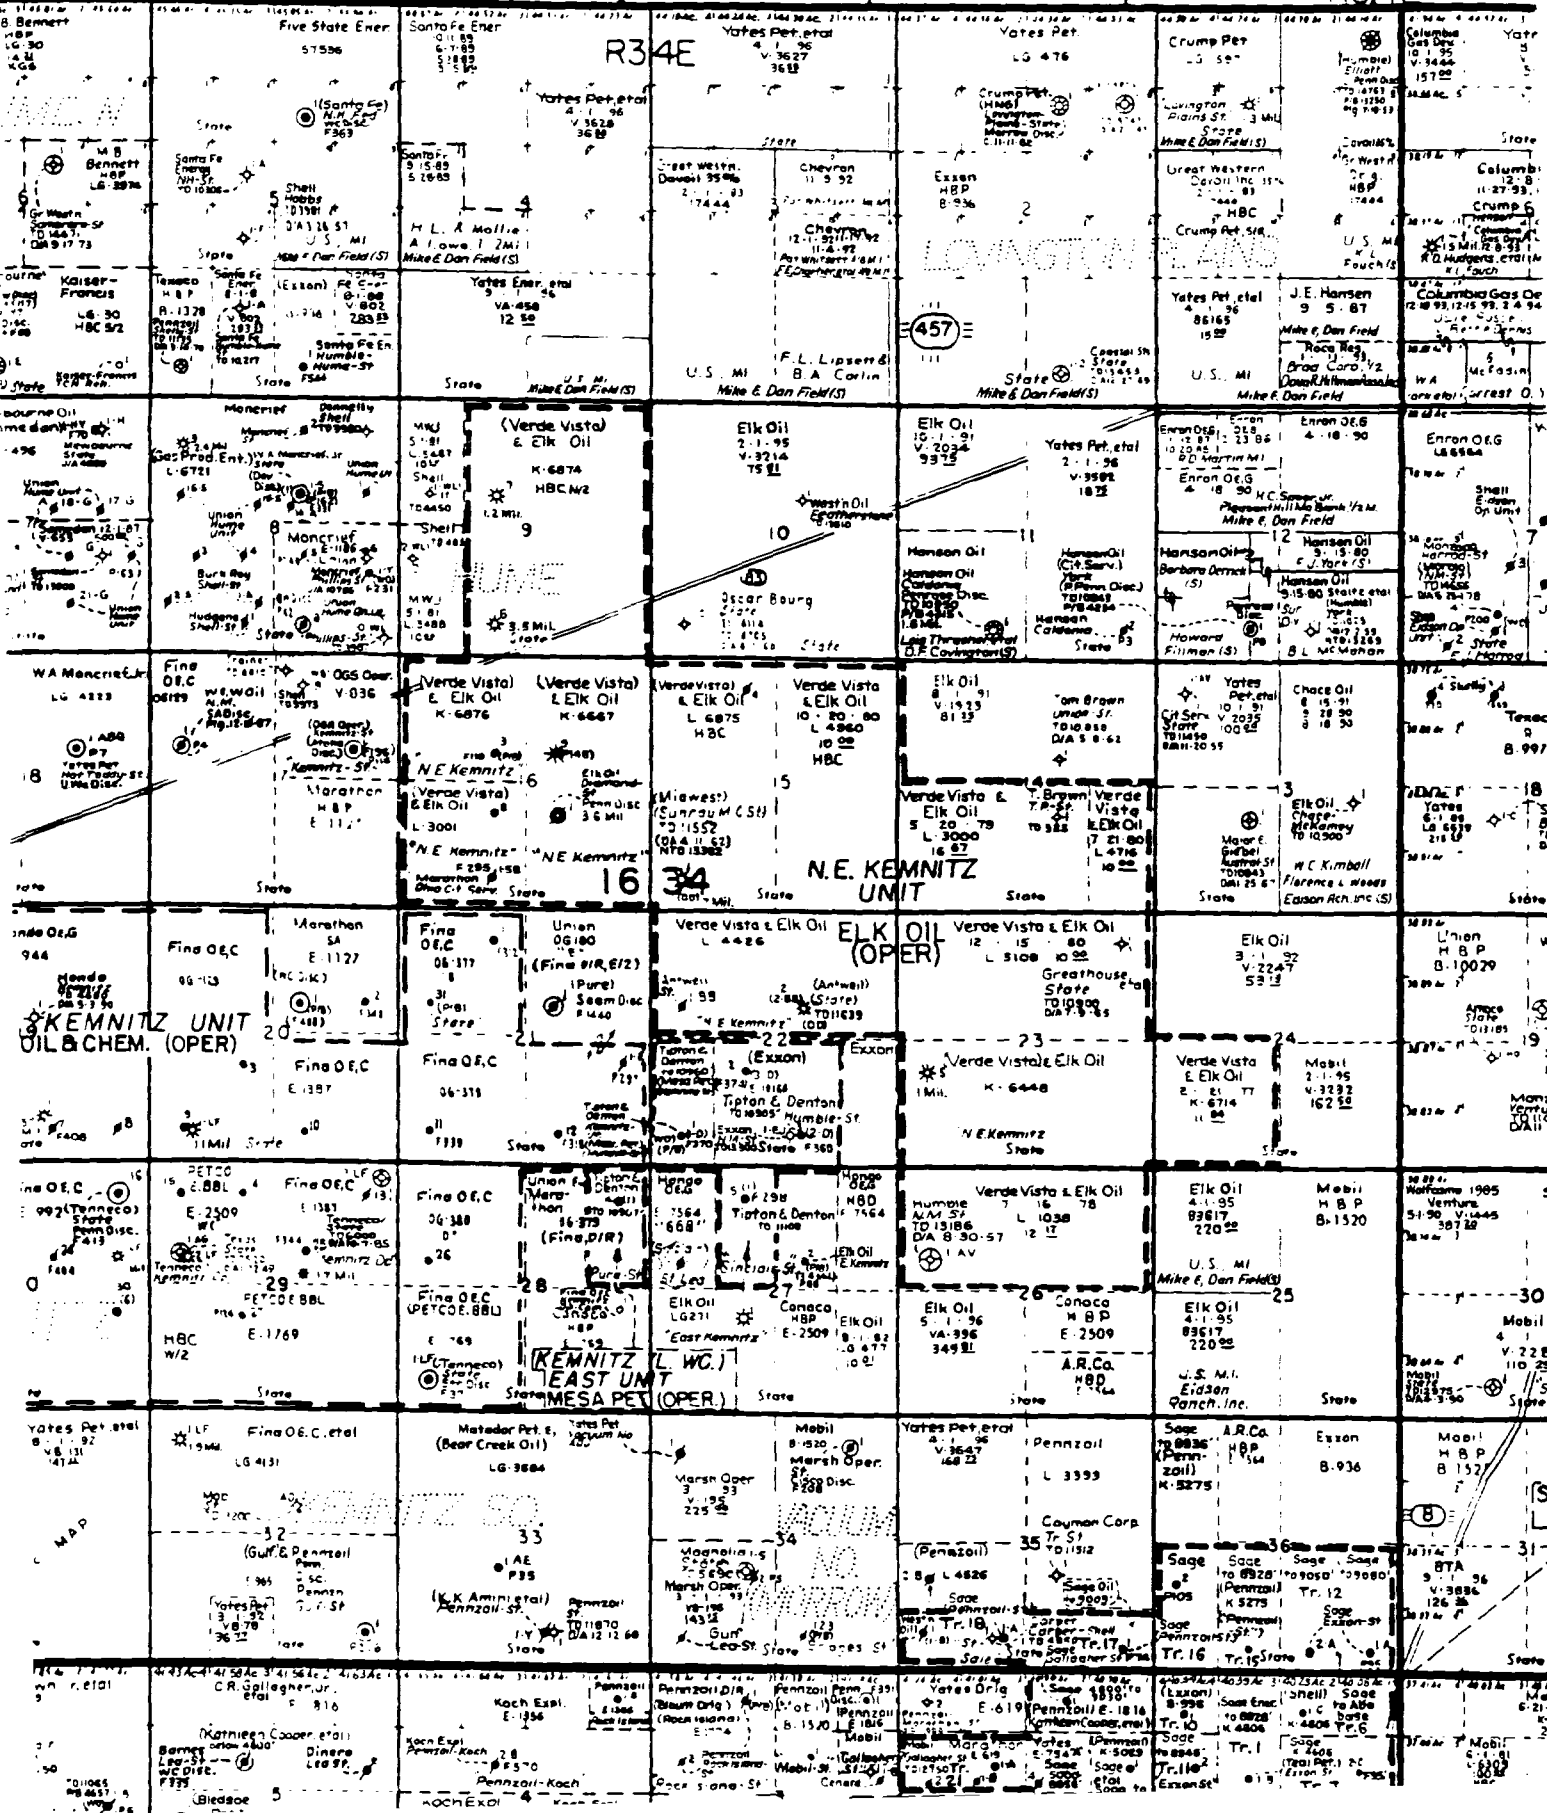

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
