Re: Your letter of 8 July 69 relating to
proration in the S. Prairie (Cisco)
Pool, Roosevelt County, New Mexico

Dear Sir:

Upon consideration of the well capabilities in the area surrounding our Louise No.1, (located in Unit 1, Section 21, T-8-S, R-36-E, Roosevelt County, New Mexico), we feel that the needs of conservation cannot be met by the use of 160 acre spacing. This lease offsets what we believe to be your leases in the S. Prairie Cisco Pool. We feel that spacing greater than 80 acres will undoubtedly result in the failure to recover substantial oil reserves.

Therefore, we feel that we must oppose your application to re-define the limits of the S. Prairie Cisco Pool according to your letter, copy attached.

Yours very truly,

SOLAR OIL COMPANY

Re: Application of Roger C. Hanks to re-define the South Prairie Cisco Pool and the Middle Allison Pennsylvanian Pool in Roosevelt and Lea Counties, New Mexico, for 160-acre spacing and 80-acre allowables

Gentlemen:

Reference is made to my letter of June 30, 1969, requesting your support in the above hearing scheduled by the New Mexico Oil Conservation Commission on July 9, 1969, and re-scheduled for hearing on July 23, 1969.

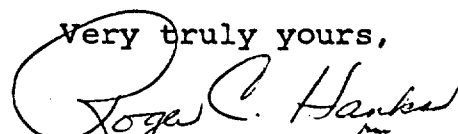

I would like to apologize to the operators of the South Prairie Cisco Pool in that my letter to each of you was too broad in scope and I should have more specifically stated the exact acreage I am requesting to be deleted from the South Prairie Cisco and added to the Middle Allison Pennsylvanian.

I am requesting that the NE/4 of Section 29 be deleted from the South Prairie Cisco and be added to the Middle Allison Pennsylvanian. I am also requesting that the NW/4 of Section 28 be deleted from the South Prairie Cisco and be added to the Middle Allison Pennsylvanian. In addition to this, I am requesting that the balance of Section 29, the SE/4 of Section 30, and the N/2 of Section 32 be included in the Middle Allison Pennsylvanian Pool. This acreage is not presently spaced in either field.

My apologies to the South Prairie operators for not being more specific.

Your attention and support regarding this hearing is respectfully requested.

Very truly yours,

Roger C. Hanks

Re: Application of Roger C. Hanks
for Special Pool Rules for the
North Mescalero-Cisco Pool, Lea
County, New Mexico, including
provision for 160-acre spacing
and proration units and 80-acre
allowables

Gentlemen:

The undersigned respectfully requests your support in the
above described hearing scheduled as Case 4161 on the Ex-
aminer's docket Wednesday, July 9, 1969.

The purpose of the hearing is to show evidence to the Oil
Conservation Commission that the North Mescalero-Cisco Pool
warrants 160-acre spacing because of areal continuity and
identity of the producing zone; we maintain that one well
will effectively and efficiently drain 160 acres or more
and that it is not economically feasible to drill wells
on either 40 acres or 80 acre units. Our belief is that the
establishment of special pool rules as herein outlined will
be in the interest of conservation and the prevention of
waste and will tend to protect correlative rights.

Again, we respectfully request your support concerning this
application. Please indicate your approval or disapproval
of this application by signing and returning one copy of
the enclosed letter.

RE: North Mescalero Area
St.Lse. K-117
Lease No. NM-2400
N/2 SE/4 Section 10
10S-32E, Lea County, New Mex.

Dear Mr. Hanks:

Reference is made to your letter dated June 18, 1969 where-
by you requested American Petrofina's permission to communitize
the subject lease with the S/2 of the SE/4 of Section 10, 10S-32E
Lea County, New Mexico, previously owned by Mobil Oil Corporation.

This will serve to advise that American Petrofina Exploration
Company does not consent to the communitization of these two
leases under the terms you requested and therefore we intend to
proceed in preparing the assignment under the basic terms and ob-
ligations as set forth in our Farmout Agreement dated November 8,
1968.

Very truly yours,

AMERICAN PETROFINA EXPLORATION
COMPANY.
