Attention Mr. A. L. Porter, Jr.

Re: Reserve Oil and Gas Company
South Langlie Jal Unit
Jalmat Waterflood Project
Lea County, New Mexico

Gentlemen:

New Mexico Oil Conservation Commission Order No. R-4022A, dated October 14, 1970, authorized Reserve to initiate a waterflood project in the South Langlie Jal Unit, Jalmat Oil Pool, by the injection of water into the Seven Rivers and Queen formations through ten injection wells. The injection of water into the ten authorized wells was commenced April 16, 1971.

Reserve respectfully requests an Examiner hearing during January, 1972 for the purpose of presenting evidence in support of our proposal to inject water into the Seven Rivers and Queen formations of South Langlie Jal Unit Well No. 23, located 2310 feet FSL and 2310 feet FWL, Section 17, T-25-S, R-37-E, Lea County.

The conversion of South Langlie Jal Unit Well No. 23 to an injection well will result in an improvement in the injection pattern of the waterflood project which should result in a more thorough and efficient sweep of the oil by the waterflood.

Very truly yours,

RESERVE OIL AND GAS COMPANY

Erd M. Johnson
