Post Office Box 1769  
Santa Fe, New Mexico

Dear Mr. Kellahin:

Reference is made to Commission Order No. R-4290, recently entered in Case No. 4686, approving the expansion of the Sulimar-Queen Unit Waterflood Project.

Injection into the three newly authorized water injection wells shall be through tubing and packer, the packers being set approximately 50 feet above the injection zone.

As to allowable, our calculations indicate that when all of the authorized injection wells have been placed on active injection, the maximum allowable which this project will be eligible to receive under the provisions of Rule 701-E-3 is 882 barrels per day when the South-east New Mexico normal unit allowable is 42 barrels per day or less.

Please report any error in this calculated maximum allowable immediately, both to the Santa Fe office of the Commission and the appropriate district proration office.

In order that the allowable assigned to the project may be kept current, and in order that the operator may fully benefit from the allowable provisions of Rule 701, it behooves him to promptly notify both of the aforementioned Commission offices by letter of any change in the status of wells in the project area, i.e., when active injection commences, when additional injection or producing wells are drilled, when additional wells are acquired through purchase or unitization, when wells have received a response to water injection, etc.

RE: SULIMAR QUEEN UNIT  
WATERFLOOD OPERATIONS  
CHAVES COUNTY, N. M.

ATTENTION: Mr. A. L. PORTER, JR.

GENTLEMEN:

PURSUANT TO YOUR LETTER OF JUNE 2, 1972, WITH REFERENCE TO COMMISSION ORDER No. R-4290, ENTERED IN CASE No. 4686. THIS LETTER IS TO ADVISE THAT WE ARE NOW RECEIVING INCREASED PRODUCTION FROM THE WATERFLOOD DUE TO WATER INJECTION. WE HAVE NOT HAD A COMPLETE RESPONSE IN ALL THE WELLS, AND THE PRIMARY RESPONSE HAS BEEN ON TRACTS I, II AND III.

WE HAVE COMBINED PRODUCTIONS FROM TRACTS I, II AND III INTO A COMMON TANK BATTERY ON TRACT I. THE PRODUCED WATER IS NOW BEING RECYCLED AND INJECTED INTO THE QUEEN FORMATION, AND WE ARE IN THE PROCESS OF CONSOLIDATING AND RECYCLING WATER OFF TRACTS IV AND V.

VERY TRULY YOURS,

*Jack L. McClellan*  
JACK L. MCCLELLAN  
UNIT OPERATOR
