Re: Case No. 5097
Docket No. 31-73

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Attention Mr. A. L. Porter, Jr.
Secretary-Director

Gentlemen:

Robinson Brothers completed the discovery well in the Winchester Wolfcamp Field in early 1966 and continues to operate one of only two wells in the field.

Robinson Brothers does not object to the field being reclassified as a gas field, however we do object to the field being developed on 320 acre units.

We believe the field is producing from porosity traps within the Wolfcamp lime which are not connected and therefore cannot be drained by drilling on 320 acre spacing units.

Robinson Brothers request that the Winchester Wolfcamp Field be reclassified a gas field to be developed on 160 acre units.

Very truly yours,

ROBINSON BROTHERS
