

DOCKET: COMMISSION HEARING - TUESDAY - AUGUST 13, 1974

OIL CONSERVATION COMMISSION - 9 A.M. - MORGAN HALL, STATE LAND OFFICE
BUILDING, SANTA FE, NEW MEXICO

- ALLOWABLE: (1) Consideration of the allowable production of gas from seventeen prorated pools in Lea, Eddy, Roosevelt, and Chaves Counties, New Mexico, for September, 1974;
- (2) Consideration of the allowable production of gas from five prorated pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, for September, 1974.
- CASE 5264: Application of El Paso Natural Gas Company for the amendment of Order No. R-1670, Blanco Mesaverde Pool, San Juan and Rio Arriba Counties, New Mexico. Applicant, in the above-styled cause, seeks the amendment of the pool rules promulgated by Order No. R-1670, as amended, for the Blanco Mesaverde Pool in San Juan and Rio Arriba Counties, New Mexico, to authorize the Secretary-Director of the Commission to approve the drilling of a second well on an existing proration unit without notice and hearing, provided that the second well would be drilled in the quarter section of the unit which does not contain a well, and provided further that in calculating the allowable for a proration unit containing two wells, the deliverability of both wells would be combined for determining the unit's "AD Factor", and the unit allowable could be produced from either or both wells. For purposes of balancing underproduction or overproduction, both wells on a proration unit would be considered as one well; for determining whether a unit would be classified marginal or non-marginal, the production from both wells would be compared with the unit's allowable; and for reporting production, the total unit production for the month would be reported as well as the individual well production.

LIST OF OPERATORS OF BLANCO MESAVERDE WELLS
