Case 9571

Dear Mr. LeMay:

This is a request for administrative approval for an unorthodox gas well location in the Basin Fruitland Coal Pool.

It is intended to locate the El Paso Natural Gas San Juan 30-6 Unit #406R at 2560' from the North line and 2610' from the West line of Section 15, T-30-N, R-7-W, Rio Arriba County, New Mexico.

Navajo Lake, Francis Creek and other well sites make it impossible to build an orthodox location in the west half of this section.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Plats showing the proposed well location and the terrain in Section 15, along with an ownership plat, are attached.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Peggy Bradford".

Dear Mr. LeMay:

This is a request for administrative approval for an unorthodox gas well location in the Undesignated Fruitland Pool.

It is intended to locate the Meridian Oil Inc.'s San Juan 30-6 Unit #408 at 2315 feet from the South line and 1923 feet from the West line of Section 15, T-30-N, R-7-W, Rio Arriba County, New Mexico.

This well has been staked in an unorthodox location in the Southwest Quarter of Section 15 at a point midway between the Meridian Oil Inc. San Juan 30-6 Unit #402 and San Juan 30-6 Unit #406. The purpose of requesting such a location is to use this well for testing to monitor the cluster effect of water drainage of a coal bed to improve deliverability.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Plats showing the proposed well location and the terrain in Section 15, along with an ownership plat, are attached.

Sincerely yours,

J. D. Falconi
Project Drilling Engineer
