Re: Application of Sun Exploration and Production Company for Amendment of Orders R-8644-A and R-8734 to Establish Production Limitation Factors for Each Well to which a Non-standard Spacing or Proration Unit is Dedicated in the South Shoe Bar-Atoka Gas Pool, Lea County, New Mexico

Gentlemen:

This letter is to advise you that Sun Exploration and Production Company has filed an application with the New Mexico Oil Conservation Division seeking an order amending Division Orders R-8644-A and R-8734 to set new production limitation factors for wells located in Section 22, Township 17 South, Range 35 East, N.M.P.M., South Shoe Bar-Atoka Gas Pool, Lea County, New Mexico, to which non-standard spacing or proration units are dedicated. Sun seeks production limitations to be determined by multiplying the deliverability of the individual well as determined by periodic deliverability tests by the number of acres dedicated to the well.

This application has been set for hearing before the Oil Conservation Division on March 29, 1989. You are not required to attend this hearing but as an operator of a well or owner of an interest within this pool that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this matter at a later date.
