Case No. 9342

SECOND AMENDED APPLICATION

The Petroleum Corporation of Delaware files this Second Amended Application requesting downhole commingling, the amendment of Order No. R-7269, and the amendment of Administrative Order No. NSP-1290, and in support thereof states:

Downhole Commingling and Amendment of Order No. R-7269:

1. Applicant is the operator of the Superior Federal Well No. 6, located at a legal location in the S $\frac{1}{2}$ of Section 6, Township 20 South, Range 29 East, N.M.P.M., Eddy County, New Mexico.

2. By Order No. R-7269, entered April 25, 1983, the Division approved a conventional dual completion of the Superior Federal Well No. 6 to produce gas from the Strawn formation through the casing-tubing annulus, and gas from the Morrow formation through the tubing.

3. In May 1987 the Superior Federal Well No. 6 was recompleted, resulting in one of the producing zones being in the Atoka formation.

4. As a result, the Superior Federal Well No. 6 is completed in and is producing from the East Burton Flat-Morrow Gas Pool, the East Burton Flat-Atoka Gas Pool, and the East Burton Flat-Strawn Gas Pool.

5. Applicant requests permission to downhole commingle production from the Morrow and Atoka formations, and to permit such commingled production to be produced through the tubing, and that Order No. R-7269 be amended accordingly.

6. Applicant requests that it be relieved from the requirement of separately testing production from the Morrow and Atoka formations.

7. The information required by Division Rule 303 will be submitted prior to hearing.

WHEREFORE, Applicant requests the Division to enter its Order: (a) permitting the downhole commingling of production from the Morrow and Atoka formations; (b) allowing said commingled production to be produced through the tubing of the Superior Federal Well No. 6, and that Order No. R-7269 be amended accordingly; and (c) that this Order be made effective retroactively to May 1987.

Amendment of Administrative Order NSP-1290:

8. The S $\frac{1}{2}$ of Section 6, containing 299.84 acres, is dedicated to the Superior Federal Well No. 6.

9. The Superior Federal Well No. 6 is the subject of Administrative Order No. NSP-1290 as to the Morrow pool.

10. Applicant requests that Administrative Order No. NSP-1290 be amended to include the Strawn pool and the Atoka pool.

WHEREFORE, Applicant requests the Division to enter its Order amending Administrative Order No. NSP-1290 to include the Strawn and Atoka pools.

Dismissal of Simultaneous Dedication Application:

11. Applicant originally proposed to drill its Superior Federal Well No. 7 in the SE $\frac{1}{4}$ of Section 6, at a standard location, to test the Strawn and Morrow formations, and that said well be simultaneously dedicated to the S $\frac{1}{2}$ Section 6 unit.

12. Applicant hereby requests that the portion of its prior Application requesting approval of simultaneous dedication be dismissed without prejudice.

WHEREFORE, Applicant requests the Division to enter its Order dismissing the simultaneous dedication portion of its prior Application.

13. The granting of this Second Amended Application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

Dated this 11th day of April, 1989.
