IN THE MATTER OF THE APPLICATION OF
HAL J. RASMUSSEN OPERATING, INC.
FOR NON-STANDARD GAS PRORATION UNITS,
UNORTHODOX GAS WELL LOCATIONS,
SIMULTANEOUS DEDICATION, AND
SPECIAL METERING REQUIREMENTS,
LEA COUNTY, NEW MEXICO.

RECEIVED

SEP 11 1959 CASE NO. 9776

OIL CONSERVATION DIVISION
APPLICATION

HAL J. RASMUSSEN OPERATING, INC. ("Applicant"), through its undersigned attorneys, hereby makes application to the Oil Conservation Division for approval of sixteen (16) non-standard gas proration units, thirty-seven (37) unorthodox gas well locations, simultaneous dedication and special metering requirements and in support of its application states:

1. Applicant is the operator of certain acreage in Townships 22 and 23 South, Range 36 East, N.M.P.M., Lea County, New Mexico all more fully described in Exhibit A to this application.

2. Applicant seeks exceptions to the Well Location and Acreage Requirements of Rules 2(a) and 2(b)1 of the Oil Conservation Division's Special Rules and Regulations for the Jalmat Gas Pool for the non-standard gas spacing or proration units and unorthodox gas well locations in the Jalmat Gas Pool described on Exhibit A to this application.

3. Applicant also seeks authority to simultaneously dedicate the Jalmat Gas Wells on each of these units.

4. Applicant seeks approval of special metering provisions for the Jalmat gas production from the wells on the proration units identified on Exhibit A hereto to permit it to meter the total production from each proration unit and allocate this production to the wells located thereon based upon periodic metering of the production from each well by means of master meters and test meters.

5. That approval of this application will afford applicant the opportunity to produce its just and equitable share of hydrocarbons underlying each proration unit and will otherwise be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on October 4, 1989, and that after notice and hearing as required by law, the Division enter its order granting this application and providing such other and further relief as is proper.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
