*Case 9780*

RE: Application for an 80  
Acre Non-Standard Gas  
Proration Unit and Non-  
Standard Location  
McQuatters No. 1, N/2 NE/4  
Section 11, T21S - R36E,  
Lea County, New Mexico  
Eumont Gas Pool

Gentlemen:

John H. Hendrix Corporation respectfully requests administrative approval for a non-standard 80 acre gas proration unit consisting of the N/2 NE/4 Section 11, T-21-S - R-36-E, Lea County, New Mexico, for a Eumont gas well, the McQuatters No. 1, to be drilled in Unit B. A lease plat is attached showing the location of this well.

The McQuatters No. 1 is a replacement well for the Amoco No. 1 McQuatters which was a Eumont gas well with the same non-standard proration unit, approved by NSP 106, but was turned over to the Chevron Eunice Monument South Unit and plugged in the Eumont.

John H. Hendrix Corporation also requests administrative approval for a non-standard location for the No. 1 McQuatters. A deeper producing well already exists at the standard location of 660' FNL and 1980' FEL.

Approval of this request will protect correlative rights, promote conservation, and encourage the efficient recovery of gas reserves. The proposed proration unit will

N.M.O.C.D.

-2-

September 8, 1989

consist of contiguous lots and lie wholly within a single governmental section. The length or width of the proration unit will not exceed 5280 feet. The well will not be located inside 330' from any lease or quarter-quarter section line.

By copy of this letter, we are notifying the offset operators of this proposed non-standard proration unit and location. If these operators have no objections we ask that they execute the attached waiver and return one copy to the NMOCD and another to me at the letterhead address.

Yours very truly,

Ronnie H. Westbrook  
Vice-President

Gentlemen:

Please find attached our application for an 80 Acre Non-Standard Gas Proration Unit and Non-Standard Location for our McQuatters No. 1. This proposed well is being drilled on a farmout from Amoco that expires September 30, 1989. Since it will be after this date, before this application can be approved if the normal waiting time is followed, it is respectfully requested that we be allowed to spud this well immediately in order to be able to meet the farmout deadline. We realize that no allowable can be assigned until all requirements are met. The certified survey plat will be sent as soon as it can be surveyed.

If you have any questions, please call. Thank you for your consideration of this matter.

Yours very truly,

*Ronnie H. Westbrook*

RE: Non-Standard Proration Unit  
and Location Request  
McQuatters No. 1  
N/2 NE/4 Section 11, T21S R36E  
Lea County, New Mexico

Gentlemen:

The Wisier Oil Company is an offset operator to the proposed well. The John H. Hendrix Corporation has applied for a non-standard location and proration unit for the McQuatters No. 1 in the Eumont Gas.

The Wisier Oil Company is of the opinion that a regular 160 acre proration unit should be established. The non-standard 80 acre unit would cause undue drainage of gas from the formation under The Wisier Oil Company's lease.

Very truly yours,  
  
Richard L. Starkey
