Attention: Ronnie H. Westbrook

Amended Administrative Order NSP-106(L)

Dear Mr. Westbrook:

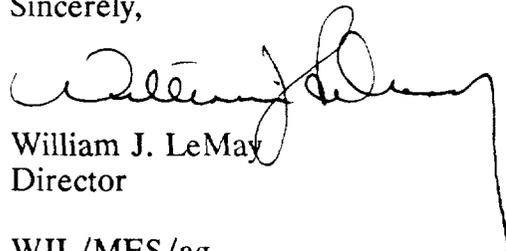

Reference is made to your application of September 12, 1989 to reinstate the previously approved 80-acre non-standard gas spacing and proration unit in the Eumont Gas Pool (Administrative Order NSP-106 dated March 16, 1955) comprising the N/2 NE/4 of Section 11, Township 21 South, Range 36 East, NMPM, Lea County, New Mexico.

It is our understanding that the original well dedicated to this unit, the Amoco McQuatters Well No. 1 located 660 feet from the North and East lines of said Section 11, was plugged back to the Eunice Monument Pool and was turned over to the Chevron U.S.A., Inc. Eunice Monument South Unit in January, 1987.

Furthermore, it is our understanding that this unit will now be dedicated to a replacement well, the McQuatters Well No. 1, to be drilled at an unorthodox gas well location 860 feet from the North line and 2100 feet from the East line (Unit B) of said Section 11.

By authority granted me under the provisions of Rules 2(c) and 2(a)4 of the Special Rules for the Eumont Gas Pool as promulgated by Division Order No. R-8170, as amended, the above-described unorthodox gas well location and non-standard gas proration unit are hereby approved.

Sincerely,

William J. LeMay
Director

Re: Case No. 9780; Application of John H. Hendricks
Corporation for Unorthodox Gas Well Location and
Non-standard Gas Proration Unit

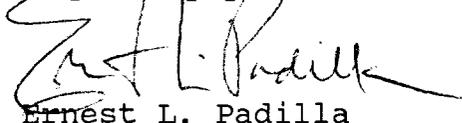

Dear Mr. Stogner:

As I explained to you during our telephone conversation today, I have been retained by John H. Hendricks Corporation in connection with the above-referenced application which, to my understanding, was not approved administratively because Wiser Oil Company objected to the application. Wiser Oil Company has since rescinded its objection. Attached hereto is a copy of a letter to that effect. As such, it appears that a hearing is not necessary if the only reason for the hearing was Wiser's objection.

To give us additional time to determine whether administrative approval can be made, we ask that the hearing on the matter be continued until November 1, 1989, the Division's next hearing date.

Should you have any questions, or need additional information, please let me know.

Very truly yours,

Ernest L. Padilla

Re: Non-Standard Proration Unit
and Location Request
McQuatters No. 1
N/2 NE/4 Section 11, T21S R 36E
Lea County, New Mexico

Gentlemen:

The Wisser Oil Company is an offset operator to the proposed well. The John H. Hendrix Corporation has applied for a non-standard location and proration unit for the McQuatters No. 1 in the Eumont Gas. By letter dated September 22, 1989, The Wisser Oil Company objected to a non-standard proration unit and location request for the captioned well.

As an off-set operator, The Wisser Oil Company has no objection to the Hendrix application for a non-standard location and proration unit for the McQuatters No. 1 in the Eumont Gas.

Very truly yours,

Richard L. Starkey

RE: Non-Standard Gas Proration Unit and
Unorthodox Gas Well Location
Application
McQuatters Well No. 1, N/2 SE/4,
Section 11, Township 21 South, Range
36 East, Eumont Gas Pool, Lea County,
New Mexico.

Dear Mr. Westbrook:

The Wiser Oil Company, an offset operator to the south of your proposed unorthodox Eumont gas well location and non-standard proration unit, filed opposition on September 25, 1989 to your filing.

This application will therefore be set for hearing on the next available docket scheduled for October 18, 1989.

If you should have any questions concerning this matter, please contact me.

Sincerely,

Michael E. Stogner
Chief Hearing Officer/Engineer

RE: Non-Standard Proration Unit
and Location Request
McQuatters No. 1
N/2 NE/4 Section 11, T21S R36E
Lea County, New Mexico

Gentlemen:

The Wiser Oil Company is an offset operator to the proposed well. The John H. Hendrix Corporation has applied for a non-standard location and proration unit for the McQuatters No. 1 in the Eumont Gas.

The Wiser Oil Company is of the opinion that a regular 160 acre proration unit should be established. The non-standard 80 acre unit would cause undue drainage of gas from the formation under The Wiser Oil Company's lease.

Very truly yours,

Richard L. Starkey
