RE: Application for Unorthodox  
Drilling Permit  
Kennedy Farms Morrow Pool  
Vogel #1 Well  
S/2 of Section 14, T17S-R26E,  
Eddy County, New Mexico

Ladies & Gentlemen:

Mewbourne Oil Company proposes to drill the Vogel #1 well at a location 660 feet from the west line and 660 feet from the south line of Section 14, T17S, R26E, Eddy County, New Mexico as a 8,800' Morrow test well. The pool rules for the Kennedy Farms Morrow Pool are 1980 feet from the nearest end boundary and 660 feet from the nearest side boundary (statewide pool rules). According to the New Mexico Oil Conservation Division's rule 104 C. II (a), permission to drill the Vogel #1 well at the proposed location requires notice and hearing.

Mewbourne wishes to drill this well at the proposed location because we feel it is necessary if we are to recover oil and gas reserves underlying our lease. We are also convinced that the distance from the proposed well location to other producing wells in the area is sufficient to insure no harmful effect on other producers.

If you have no objection to the proposed location, please date and execute the attached Waivers of Objection and return two (2) executed copies to us in the enclosed self-addressed envelope. Should you have any questions regarding the above or want to discuss this matter further, please call. Your prompt and favorable response will be sincerely appreciated.
