RE: Application of Tahoe Energy, Inc. for approval of four (4) non-standard gas proration units in the Jalmat Pool, Lea County, New Mexico.

Gentlemen:

Please be advised that the November 30, 1989, letter advising you of Tahoe's application for the four non-standard proration units as described below contained an error. The Township number should have been 25 South, not 24 South. The correct legal description is set forth for each non-standard proration unit requested below.

Tahoe Energy, Inc. will file an application for approval of four (4) non-standard gas proration units each of which is more fully described as follows:

(1) E/2, W/2 of Section 3, Township 25 South, Range 37 East, Lea County, New Mexico comprising 160 +/- acres.

(2) W/2, W/2 of Section 3, Township 25 South, Range 37 East, Lea County, New Mexico comprising 160 +/- acres.

(3) W/2, E/2 of Section 3, Township 25 South, Range 37 East, Lea County, New Mexico comprising 160 +/- acres.

(4) E/2 NE/4 and NE/4 SE/4 of Section 4, Township 25 South, Range 37 East, Lea County, New Mexico comprising 120 +/- acres.

The wells on each of these units will be drilled at standard locations.

The above described application will be set for hearing before a Division Examiner on December 27, 1989. You are not required to attend this hearing, but as an owner of

an interest that may be subject to the non-standard proration unit you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

This letter is to provide you with notice of Tahoe Energy Inc.'s application as required by Oil Conservation Division Rule 1207. If you have no objection to Tahoe's request, please sign below and return one copy to us for filing with the Division. A self-addressed stamped envelope has been provided for your convenience.

If you have any questions concerning this application, please feel free to contact me.
