IN THE MATTER OF THE APPLICATION OF  
ENRON OIL & GAS COMPANY FOR  
FOR COMPULSORY POOLING,  
AND AN UNORTHODOX LOCATION,  
EDDY COUNTY, NEW MEXICO.

RECEIVED  
MAY 14 1990  
OIL CONSERVATION DIVISION  
CASE NO. 9907

**MOTION TO QUASH SUBPOENA DUCES TECUM**

ENRON OIL & GAS COMPANY ("Enron"), by its attorneys, Campbell & Black, P.A., hereby moves the Division to quash the Subpoena Duces Tecum issued April 27, 1990, which subpoena commands Enron Oil & Gas Company to appear before a Hearing Examiner of the Oil Conservation Division and to produce those documents set forth in the Subpoena Duces Tecum which is attached to this motion as Exhibit "A".

As grounds for its Motion to Quash Subpoena Duces Tecum, Enron states the following:

1. The subpoena directs Enron to produce documents at the May 2, 1990 hearing, and Enron was not served with the subpoena until May 10, 1990.
2. The information sought is clearly irrelevant as it requests documents and records pertaining to the Malaga "2" State Com. Well No. 1 which is not the well at issue in the above-referenced case. To require production of data on offsetting properties not at issue in this application would constitute an abuse of the Commission's subpoena power.

3. The subpoena is vague for it requests production of "any other logs prepared on or for, or related to the Enron Oil & Gas Company Malaga "2" State Com. Well No. 1". (Emphasis added).

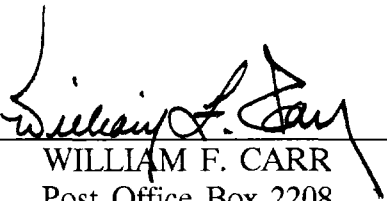

4. The subpoena requests that information be produced at the hearings to be held on May 2, 1990 and lists no persons to whom the information is to be produced except for the Hearing Officer present on that date. Upon information and belief, Enron states that the subpoenas were obtained on behalf of Santa Fe Energy Operating Partners, L.P., and Texaco Inc. Santa Fe Energy Operating Partners, L.P., has voluntarily joined in the drilling of this well which confirms that the subpoenaed information is irrelevant to the decision of whether or not to participate in the drilling of the subject well.

5. Enron states that it is prepared to produce the information to the Hearing Officer but asserts that the requested information is proprietary and confidential in nature, and, therefore, will request that the Commission keep the information confidential to its Rule 1105 and otherwise protect the information from disclosure to third parties.

WHEREFORE, Enron Oil & Gas Company requests that the Division quash the Subpoena Duces Tecum or in the alternative direct that the requested information be produced only to the Hearing Examiner for his review and inspection. Further, Enron requests that the Division protect this proprietary information and undertake adequate measures to assure that it will not be inadvertently disclosed to third parties.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
