Dear Mr. LeMay:

Our firm represents Meridian Oil, Inc. in each of the referenced cases which were originally filed for administrative approval as unorthodox gas wells in the Basin Fruitland Coal Gas Pool. Thereafter, as a result of an objection filed by Breck Operating Corp. the Division placed these cases on the Examiner docket for hearing on July 25 1990, and directed Meridian to provide notice of hearing.

William J. LeMay
July 16, 1990
Page 2

In order to comply with the notice requirements of Rule 1207, we will need additional time and, therefore, request that the referenced cases be continued from July 25, 1990 to the Examiner Hearing set for August 8, 1990.

By copy of this letter, with enclosures, we are notifying the appropriate offsetting parties by certified mail return-receipt that they have the right to appear at the hearing, to make a statement to the Division, to present evidence and cross examine witnesses either in support of or in opposition to the application. In addition, any party desiring to participate should complete and file with the Division, copy to the undersigned, a pre-hearing statement by Friday, August 3, 1990 at 4:00 p.m.

Very truly yours,

W. Thomas Kerflahin

San Juan County, New Mexico

Dear Mr. LeMay:

This letter is written on behalf of B.B.L., Ltd. B.B.L., Ltd. owns working interests in the acreage that offsets the requested non-standard gas well locations requested by Meridian Oil Inc. for the Basin Fruitland Coal Pool.

We are opposed to Meridian's request for the non-standard gas well location. To grant such a location would work a hardship on B.B.L., Ltd. and would create drainage problems for B.B.L., Ltd. We believe the established drainage patterns will best protect the correlative rights of all parties.

Also, B.B.L., Ltd. has approached Meridian about forming pooled units for recompletion possibilities in the Fruitland Coal in the same sections at standard locations. For these reasons we request that their requests be denied.

Yours very truly,

Ronald A. Holloway

RE: Kutz Canyon Oil & Gas #1
990'FSL, 1650'FEL
Section 17, T-28-N, R-10-W
San Juan County, New Mexico

Dear Mr. LeMay:

This is a request for administrative approval for a non-standard gas well location in the Basin Fruitland Pool.

Meridian Oil intends to plugback and recomplete the Kutz Canyon Oil & Gas #1 well from the Pictured Cliffs pool to the Basin Fruitland Coal Pool. The current location of this well is 990'FSL, 1650'FEL, Section 17, T-28-N, R-10-W, San Juan County, New Mexico. The well is considered non-standard due to the NE-SW dedicated pattern established for the Basin Fruitland Coal Pool. To comply with the New Mexico Oil Conservation Division rules, Meridian is submitting the following for your approval of this non-standard location:

1. C-102 plat showing location of the well;
2. Plat showing offset owners/operators;
3. Affidavit of notification of offset owners/operators;
4. Copy of Well Completion Log for original completion.

A copy of this application is being submitted to all offset owners/operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Sincerely yours,

Peggy Bradfield
encl.

Breck Operating Corp., Individually **WAIVER**
and on behalf of B.B.L., Ltd. hereby waives objection to Meridian Oil Inc.'s application for a non-standard location for their Kutz Canyon Oil & Gas #1 as proposed above.

RE: Administrative Application for an unorthodox coal gas well location; Kutz Canyon Oil and Gas Well No. 1, 990' FSL - 1650' FWL (Unit O), Section 17, Township 28 North, Range 10 West, NMPM, Basin Fruitland Coal Gas Pool, San Juan County, New Mexico.

Dear Ms. Bradfield:

This agency has received an objection from Breck Operating Corporation to the subject filing in a timely manner (see copy attached); therefore, this matter will be set for hearing before an examiner on the next available docket scheduled for July 25, 1990.

Please provide adequate notice for such an application prior to the hearing as required by Division General Rule 1207.

If you should have any questions concerning this matter, please contact me.

Sincerely,

Michael E. Stogner

Administrative Order NSL-2841

Dear Ms. Bradfield:

Reference is made to your application dated June 8, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Kutz Canyon Oil and Gas Well No. 1 which was drilled in 1951 and completed in the Fulcher Kutz Pictured Cliffs Pool at a standard gas well location 990 feet from the South line and 1650 feet from the East line (Unit O) of Section 17, Township 28 North, Range 10 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the S/2 of said Section 17 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay
Director
