Re: Application of J.M. Huber Corporation
for Non-Standard Location
Tatum Wolfcamp Field
Lea County, New Mexico

Gentlemen:

J.M. Huber Corporation hereby gives notice of a non-standard location in exception to Field Rule No. 3 for the Tatum Wolfcamp Pool, Lea County, New Mexico. The proposed non-standard location is 660' FSL & 660' FWL, Sec. 32, T12S, R36E, which is the center of the southwest quarter of the southwest quarter of the section (See attached plat). The existing field rules for the Tatum Wolfcamp Pool provide that each well is to be located within 150 feet of the center of the northwest or southeast quarter of the quarter section in which the well is located.

As an offset operator to the proposed proration unit, we are requesting your support of our application, and in this respect, ask that you not oppose this application for an exception to the existing pool rules. As you know, your concurrence would be very useful in the subject application by J.M. Huber Corporation.

We would greatly appreciate your early review of our request and ask that if you have no objection to Huber's application as discussed that you sign one copy of this letter and return it to me at the above address. We anticipate that this application will require a hearing before the New Mexico OCD, probably sometime in October, 1984. Your approval and return of this letter prior to such date will be greatly appreciated.

Sincerely,

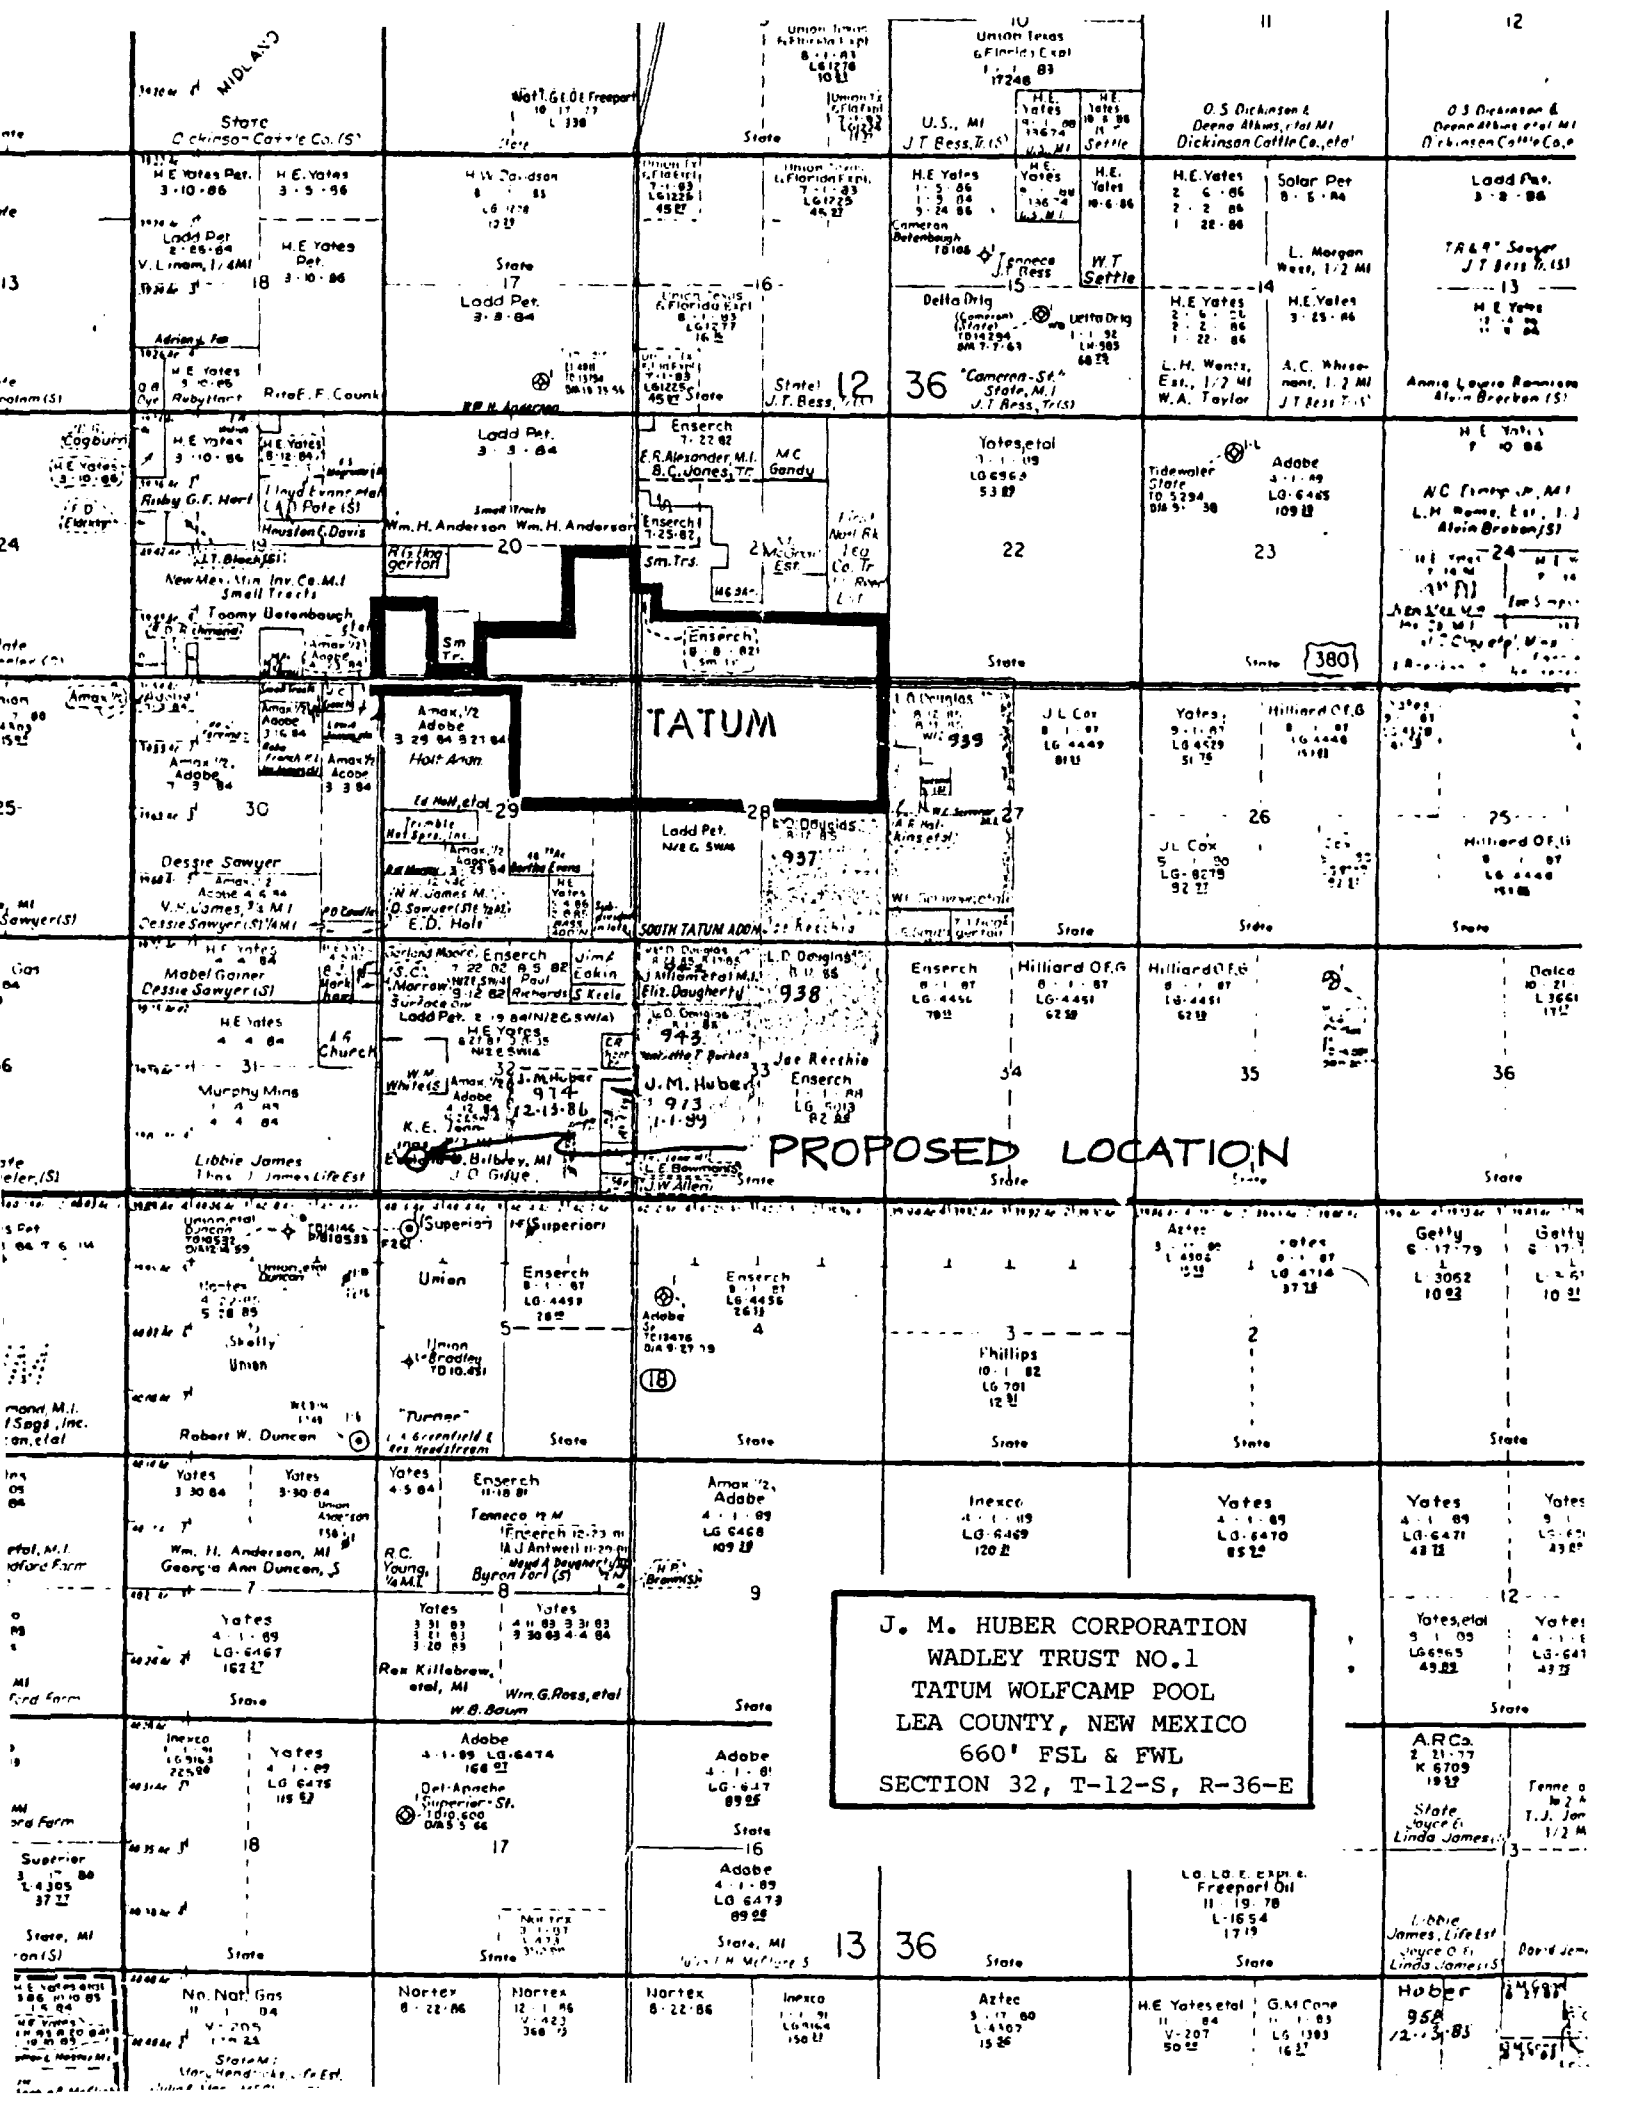

Robert R. Glenn
District Production Manager

We agree to waive any objection to the application of J.M. Huber Corporation for a non-standard location in the Tatum Wolfcamp Pool as outlined herein above.

Re: Application of J.M. Huber Corporation
for Non-Standard Location
Tatum Wolfcamp Field
Lea County, New Mexico

Gentlemen:

J.M. Huber Corporation hereby gives notice of a non-standard location in exception to Field Rule No. 3 for the Tatum Wolfcamp Pool, Lea County, New Mexico. The proposed non-standard location is 660' FSL & 660' FWL, Sec. 32, T12S, R36E, which is the center of the southwest quarter of the southwest quarter of the section (See attached plat). The existing field rules for the Tatum Wolfcamp Pool provide that each well is to be located within 150 feet of the center of the northwest or southeast quarter of the quarter section in which the well is located.

As an offset operator to the proposed proration unit, we are requesting your support of our application, and in this respect, ask that you not oppose this application for an exception to the existing pool rules. As you know, your concurrence would be very useful in the subject application by J.M. Huber Corporation.

We would greatly appreciate your early review of our request and ask that if you have no objection to Huber's application as discussed that you sign one copy of this letter and return it to me at the above address. We anticipate that this application will require a hearing before the New Mexico OCD, probably sometime in October, 1984. Your approval and return of this letter prior to such date will be greatly appreciated.

Sincerely,

Robert R. Glenn by *WGHT*

Robert R. Glenn
District Production Manager

We agree to waive any objection to the application of J.M. Huber Corporation for a non-standard location in the Tatum Wolfcamp Pool as outlined herein above.
