RE: Drilling Proposal
NE/4 Section 7-T9S-R36E
Lea County, New Mexico

Dear Mr. Corbett:

We are proposing to drill a 9800-foot Bough "C" test in the NE/4 of Section 7-T9S-R36E, Lea County, New Mexico. You have a 1/64 mineral interest in the captioned acreage which is apparently not under valid lease. Mike O'Brien, our landman, has been in contact with you regarding your ratification of the lease; and, we are still interested in securing your ratification.

We have requested a compulsory pooling hearing before the New Mexico Oil Conservation Division in order to protect our right to drill on the captioned acreage. The hearing has been set for 14 November 1984 in Santa Fe, New Mexico, as Case No. 8409. You have been furnished a copy of the Docket by our attorney.

You have indicated that you may wish to participate in the proposed well as a working interest participant. Any compulsory pooling order by the New Mexico Oil Conservation Division will insure you the right and opportunity to participate in the proposed drilling by paying your proportional share of the costs. Prior to drilling the proposed well, we will be required to furnish you a detailed estimate of the anticipated costs, and you will have the opportunity to elect to participate for your proportional interest rather than have your interest carried under the provisions of the compulsory pooling order.

We will furnish you with a copy of the Oil Conservation Division order and a copy of our AFE Cost Estimate prior to drilling the well.

Yours Very Truly,

MORRIS R. ANTWEIL

R. M. Williams
