OCD Case #8509

Dear Chad:

As you know, TXO Production Corp. has applied for compulsory pooling and an unorthodox gas well location in the above referenced well and case, which is scheduled for next Wednesday, March 27, 1985. In our latest application for this case, we notified the OCD that we would be pooling the interest of Union Oil Co. of California, as well as, Monsanto Oil Company for the Delta Fee "B" #1 Well.

This letter is to advise you that TXO and Monsanto Oil Company have reached an agreement regarding Monsanto's participation in the Delta Fee "B" #1 Well. As a result of our agreement, Monsanto Oil Company will approve our unorthodox location and TXO will remove the name of Monsanto Oil Company from our application for compulsory pooling in this case. As a result, only the interest of Union Oil Co. of California will be subject to compulsory pooling in Case #8509.

Thank you for your assistance and cooperation and please do not hesitate to give me a call should you have any questions regarding our intentions in this letter. We shall look forward to talking to you again in the near future.

Sincerely,

David M. Hundley
