OF YATES PETROLEUM CORPORATION FOR
COMPULSORY POOLING, ROOSEVELT
COUNTY, NEW MEXICO.

Case 8522

AMENDED APPLICATION

Comes now, YATES PETROLEUM CORPORATION, by and through its undersigned attorneys and, as provided by Section 70-2-17, N.M.S.A. (1978), hereby makes application for an order pooling all of the mineral interests from the surface to the top of the Wolfcamp formation, in and under the SW/4, and all of the mineral interests from the top of the Wolfcamp formation to the top of the Pre-Cambrian formation, in and under the S/2 of Section 33, Township 3 South, Range 30 East, N.M.P.M., Roosevelt County, New Mexico, and in support thereof would show the Division:

1. Applicant owns or represents approximately 99% of the working interest in and under the SW/4 of Section 33, and 99% of the working interest in and under the S/2 of said Section 33, and applicant has the right to drill thereon.

2. Applicant proposes to dedicate the above-referenced pooled unit to a well to be drilled at an orthodox location 660 feet from the South line and 1,980 feet from the West line of said Section 33.

3. Applicant has sought and obtained either voluntary agreement for pooling or farmout from all other interest owners in the S/2 of said Section 33, except for Wayne Miller, Post

Office 30x 4, Geary, Oklahoma 73040, owner of a .408633% mineral interest.

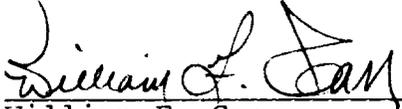

4. Said pooling of interests and well completion will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit the applicant to obtain its just and fair share of the oil and gas underlying the subject lands, the mineral interests should be pooled, and applicant should be designated the operator of the well to be drilled.

WHEREFORE, applicant prays that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on March 13, 1985, and that after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for applicant to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the applicant in drilling, completing and equipping the well, approving the location of the well as proposed by applicant, and making such other and further provisions as may be proper in the premises.

Respectfully submitted,
