W. E. Cade, Operating Manager
P. O. Box 728
Lobbs, New Mexico 88240

Dear Mr. Cade:

In response to a notice published June 21, 1965, this letter is to inform you that we object to making a disposal well of Well #62 for the purpose of salt water disposal. Well #62 lease unit name Skelly Penrose A Unit. A unit located 2200 feet FSL above 2400 feet FMI, Section 3, Township 23 South, Range 37 East, Lea County, New Mexico.

It is feared the salt water will damage our fresh water wells in the area of Well #62. There is one (1) well within 200 yards, two (2) wells within 1/2 mile, and one (1) well within 3/4 mile. Salt water has already made some of our wells unusable. We object to any disposal wells on our property.
