2. Applicant seeks the establishment of a 320-acre non-standard proration unit to be comprised of the above-described pooled acreage in the Jalmat Gas Pool to be dedicated to his Boren-Greer Gas Com. Well No. 4 to be drilled at an unorthodox location 2,145 feet from the North line and 1,600 feet from the West line of Section 21, and to his Boren-Greer Gas Com. Well No. 5 at an unorthodox location 2310 feet from the North

3. Applicant further seeks approval to simultaneously dedicate the above-described 320-acre non-standard proration unit to all existing Jalmat gas wells located thereon.

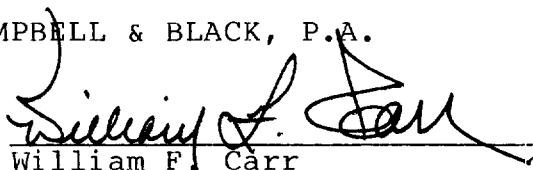

4. The approval of this application will afford applicant the opportunity to produce his just and equitable share of the gas from the Jalmat Gas Pool and will otherwise be in the best interest of conservation, the protection of correlative rights, and the prevention of waste.

WHEREFORE, Doyle Hartman requests that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on November 21, 1985, that notice be given as required by law and the rules of the Division, and that the Division enter its Order approving the locations of the two new infill wells as proposed by the applicant, and approving a 320-acre non-standard unit, simultaneously dedicating the wells located thereon, and making such other and further provisions as are warranted.

Respectfully submitted,
