Dear Sirs:

This letter is to advise you of the application of Benson-Montin-Greer Drilling Corp. for Amendment of New Mexico Oil Conservation Division Order R-8124. In this case, Benson-Montin-Greer is seeking amendment of Order R-8124 which authorized Benson-Montin-Greer to conduct a long-term reservoir pressure test in the Mancos formation using certain wells in Rio Arriba County, New Mexico, and further authorized the shut-in of certain wells and provided six months after completion of the test during which certain accumulated underproduction can be made up. County, New Mexico.

Dear Sirs:

This letter is to advise you of the application of Benson-Montin-Greer Drilling Corp. for Amendment of New Mexico Oil Conservation Division Order R-8124. In this case, Benson-Montin-Greer is seeking amendment of Order R-8124 which authorized Benson-Montin-Greer to conduct a long-term reservoir pressure test in the Mancos formation using certain wells in Rio Arriba County, New Mexico, and further authorized the shut-in of certain wells and provided six months after completion of the test during which certain accumulated underproduction can be made up. In this case, Benson-Montin-Greer seeks amendment of this Order to provide for a twelve-month period after completion of the reservoir pressure test during which to make up the accumulated underproduction of certain wells which resulted from the test.

Re: Application of Benson-Montin-Greer Drilling Corp. for  
Amendment of Division Order No. R-8124, Rio Arriba  
County, New Mexico.

Dear Sirs:

This letter is to advise you of the application of Benson-Montin-Greer Drilling Corp. for Amendment of New Mexico Oil Conservation Division Order R-8124. In this case, Benson-Montin-Greer is seeking amendment of Order R-8124 which authorized Benson-Montin-Greer to conduct a long-term reservoir pressure test in the Mancos formation using certain wells in Rio Arriba County, New Mexico, and further authorized the shut-in of certain wells and provided six months after completion of the test during which certain accumulated underproduction can be made up. In this case, Benson-Montin-Greer seeks amendment of this Order to provide for a twelve-month period after completion of the reservoir pressure test during which to make up the accumulated underproduction of certain wells which resulted from the test.

This application has been set for hearing before the Oil Conservation Division on July 23, 1986. You are not required to attend this hearing, but as an interest owner in this area you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Very truly yours,

William F. Carr
