Re: NMOCD Cases 8961 & 8962  
Designation of Non-Standard  
Proration Units  
Rio Arriba County, New Mexico

Gentlemen:

In accordance with our telephone conversation of July 21, 1986, the advertisements which were published concerning the captioned cases contained an error in that they advertised the well locations for the proposed non-standard proration units to be orthodox locations. Instead, our proposed wells will be at unorthodox locations as follows:

Section 7 - 1700' FNL & 600' FEL  
Section 18 - 1920' FNL & 720' FEL

As we discussed, Mesa Grande Resources, Inc. wishes to present our cases on August 6th and readvertise for the August 20th hearing. We appreciate your assistance in this matter.

Very truly yours,

Kathy Michael  
Landman
