Re: Application of Mobil Producing Texas and New Mexico,
Inc. for Authority to Dispose of Produced Water In Its
Government "D" Lease Well No. 4 in the Delaware Pool
Northwest Fenton Field, Eddy County, New Mexico.

Dear Sirs:

By letter dated May 12, 1986, you were furnished a copy of the application of Mobil Producing Texas and New Mexico, Inc. in the above-referenced matter. This letter is to advise you that this application has been set for hearing before an Examiner of the Oil Conservation Division on August 20, 1986. The application has been changed in one respect only. The disposal volume has been increased from 2,000 barrels per day as reflected in the application, to 3,300 barrels per day.

You need not be present at this hearing, but failure to appear and become a party of record at that time will preclude you from challenging this matter at a later date. This letter is being sent to you pursuant to the provisions of Oil Conservation Division Form C-108 since you are either a lease operator within one-half mile of the subject well, or the surface owner of the property upon which the well is located.

Very truly yours,

William F. Carr
