Petroleum Engineer

Re: Application for an Unorthodox Oil Well  
Location, Rio Arriba County, NM  
El Vado #2

Gentlemen:

I have applied for permit to drill a 1500 foot Mancos test in Section 11, T27N, R1E in the above referenced county. Said test is not within the prescribed distance from the center of the quarter-quarter section.

The location I have selected is based on our geophysical survey that locates a cross-fractured pattern which we feel if encountered will result in the best possible completion.

Please place this request for unorthodox oil well location on the earliest possible docket so that I can present my supporting data.

Respectfully,

*A. L. Dawsey, Jr.*
