*Case File -  
Case 9366*

March 24, 1988

New Mexico FF State  
Well No. 1  
Lea County, New Mexico

New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico 87501

Exxon requests permission to drill the captioned well as an unorthodox location in the Undesignated Shipp-Strawn Pool.

Field Rules for the Shipp Strawn Pool specify that no well be drilled more than 150 feet from the center of a quarter quarter section. This well is staked 990 feet from the South line and 330 feet from the East line of Section 9, T17S, R37E in Lea County.

Exxon's seismic data indicates a Strawn carbonate mound development that can best be accessed from a well at the proposed unorthodox location.

By copy of this letter, offsetting operators and unleased mineral interest owners are notified of our intent to drill this well at an unorthodox location. If you have no objection to this proposal, please sign the attached waivers and mail them in the postage paid envelopes provided.

The list of offset operators notified is attached.

Sincerely

*Charlotte Harper*
