OIL CONSERVATION DIVISION

EXHIBIT NO. 2

DATE _____

Libby	Company LBO N. Mex.	Location Laguna Niguel CA
M: Evelyn Downs	Company OCS	Location Hobbs

Any well completed in the Wolfcamp or Penn formations will come under the North Bagley Permian Penn Pool which produces from the Wolfcamp and/or any Penn formation and is spaced on 80 ac. proration units and the well must be located within 150' of the center of any qtr/qtr sec. for it to be a standard location. (R-3249)

The Northeast Bagley Wolfcamp pool was abolished by R. 7279 and the acreage placed in the North Bagley Permian Penn Pool.

There are no gas pools in this area so a gas well completion would be covered by state wide rules - 320 ac. or 160 ac depending on producing formation.

If this is not what you need, let me know
