*Administrative Order DD-75*

Dear Mr. Bruce:

Under the provisions of General Rule 111 (c), (d) and (e), Pogo Production Company made application to the New Mexico Oil Conservation Division on January 8, 1993, for authorization to directionally drill its proposed Mobil Federal Well No. 3, Eddy County, New Mexico.

The Division Director Finds That:

- (1) The application has been duly filed under the provisions of Rule 111(d) and (e) of the Division General Rules and Regulations;
- (2) The applicant has presented satisfactory evidence that all requirements prescribed in General Rule 111 will be met; and,
- (3) The only off-set operator, other than the applicant, submitted a waiver of objection to the subject application.

IT IS THEREFORE ORDERED THAT:

- (1) The applicant, Pogo Producing Company, is hereby authorized to directionally drill its Mobil Federal Well No. 3, the surface location of which shall be 480 feet from the North line and 660 feet from the East line (Unit A) of Section 29, Township 23 South, Range 31 East, NMPM, Undesignated West Sand Dunes-Delaware Pool, Eddy County, New Mexico, by kicking off from the vertical at a depth of approximately 2200 feet, and drilling in such a manner as to penetrate the entire Brushy Canyon member of the Delaware

formation (top expected to be found at approximately 6342 feet TVD) within the window established by Division General Rule 104.C(1)(a) considered to be a standard oil well location within the 40-acre tract comprising the NW/4 NE/4 (Unit B) of said Section 29.

PROVIDED HOWEVER THAT prior to commencing directional drilling operations into said wellbore, the applicant shall establish the location of the kick-off point by means of a directional survey acceptable to the Division.

PROVIDED HOWEVER THAT during or upon completion of directional drilling operations, the applicant shall conduct an accurate wellbore survey from the kick-off point to total depth in order that the subsurface bottomhole location, as well as the wellbore's true depth and course, may be determined.

(2) The applicant shall notify the supervisor of the Artesia district office of the Division of the date and time said wellbore surveys are to be conducted so that they may be witnessed. The applicant shall further provide a copy of said wellbore surveys to the Santa Fe and Artesia offices of the Division upon completion.

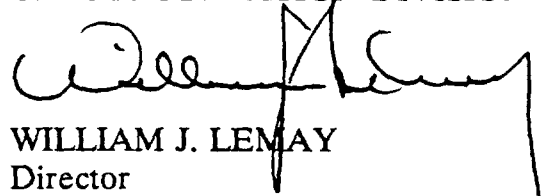

(3) Form C-105 shall be filed in accordance with Division Rule 1105 and the operator shall indicate thereon true vertical depth in addition to measured depths.

(4) The NW/4 NE/4 (Unit A) of said Section 29 shall be dedicated to the well forming a standard 40-acre oil spacing and proration unit for the subject pool.

(5) Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
