Re: PUERTO CHIQUITO MANCOS EAST
POOL: REDRILLING OF EXCEPTION
LOCATION: T-26N, R-1E,
SEC. 21: E/2 SE/4

Case 8271

Gentlemen:

This is in response to your letter of October 21 (copy enclosed for reference) regarding redrilling of the #1 Gran located on the captioned spacing unit.

It is our understanding that the formation in which this well is completed is located in the Puerto Chiquito Mancos East oil pool. This pool is spaced on 160-acre proration units; but an exception was granted in Order R-2565 to provide 80-acre proration units in the SE/4 of Section 21: E/2 of the SE/4 and W/2 of the SE/4.

As operator of offsetting lease acreage, this letter will evidence that we have no objection to your redrilling on this proration unit, as long as there is only one well completed for production on the spacing unit.

Yours truly,

BENSON-MONTIN-GREER DRILLING CORP.

Farmington, New Mexico 87401

Dear Sir:

We have purchased the United States Oil and Gas Lease N. M. 12497 and the United States Oil and Gas Lease N. M. 012493 from Han-San Inc. and wish to move over and redrill the Gran located in Township 26 N, Range 1 East, N. M. P. M., Section 21: NE/4 SE/4.

As our records and information show you to be the offset owner, we are requesting 40 acre spacing as per instruction from O. C. C. This unit has 40 acres spacing at present but according to our instruction we must resubmit application.

Thank you,

A handwritten signature in cursive script that reads "Robert A. Mack".
