4. That due to the refusal of the pipeline to take the gas

allowable assigned to each of the proration units described in paragraphs 1, 2 and 3 above, the units were at various times since mid-1982 reclassified from non-marginal status to marginal status.

5. That each of the units was subsequently reclassified back to non-marginal status, but the accrued underproduction for each of these proration units was not reinstated resulting in the loss to applicant of millions of cubic feet of gas which he had previously been entitled to produce.

7. That granting this application will not cause waste nor impair the correlative rights of any interest owner in the Jalmat Gas Pool.

WHEREFORE, applicant requests that this matter be set for hearing on October 3, 1984, before a duly appointed Examiner of the Oil Conservation Division, and that after notice and hearing as required by law, the Division enter its order reinstating the previously cancelled underproduction for the Late Thomas Lease, Custer State Lease and Maralow State Lease in the Jalmat Gas Pool.
