

CERTIFICATION FOR:

Getty Oil Company (Texaco, Inc.)
Mexico Federal "K" Well No. 1-E

Located 1190 feet from the South
line and 2020 Feet from the West
line of Section 8, Township 28
North, Range 10 West, N.M.P.M.,
San Juan County, New Mexico

The undersigned, an employee of Getty Oil Company ("Getty"),
certifies that:

1. Getty is the operator of the captioned well. That well is drilled in the Basin-Dakota Pool. After notice and hearing, the New Mexico Oil Conservation Commission (or Oil Conservation Division, as the case may be) issued its Order R-1670-V finding that infill drilling in that pool will increase the recoverable reserves under the various proration units in that pool, will result in more efficient use of reservoir energy, and will tend to ensure greater ultimate recovery of gas from that pool.
2. The ability of the captioned well to produce into any connected pipeline has not been and will not be restricted by Getty in any manner for the purposes of avoiding the application of the New Mexico Natural Gas Pricing Act to sales of natural gas from that well.

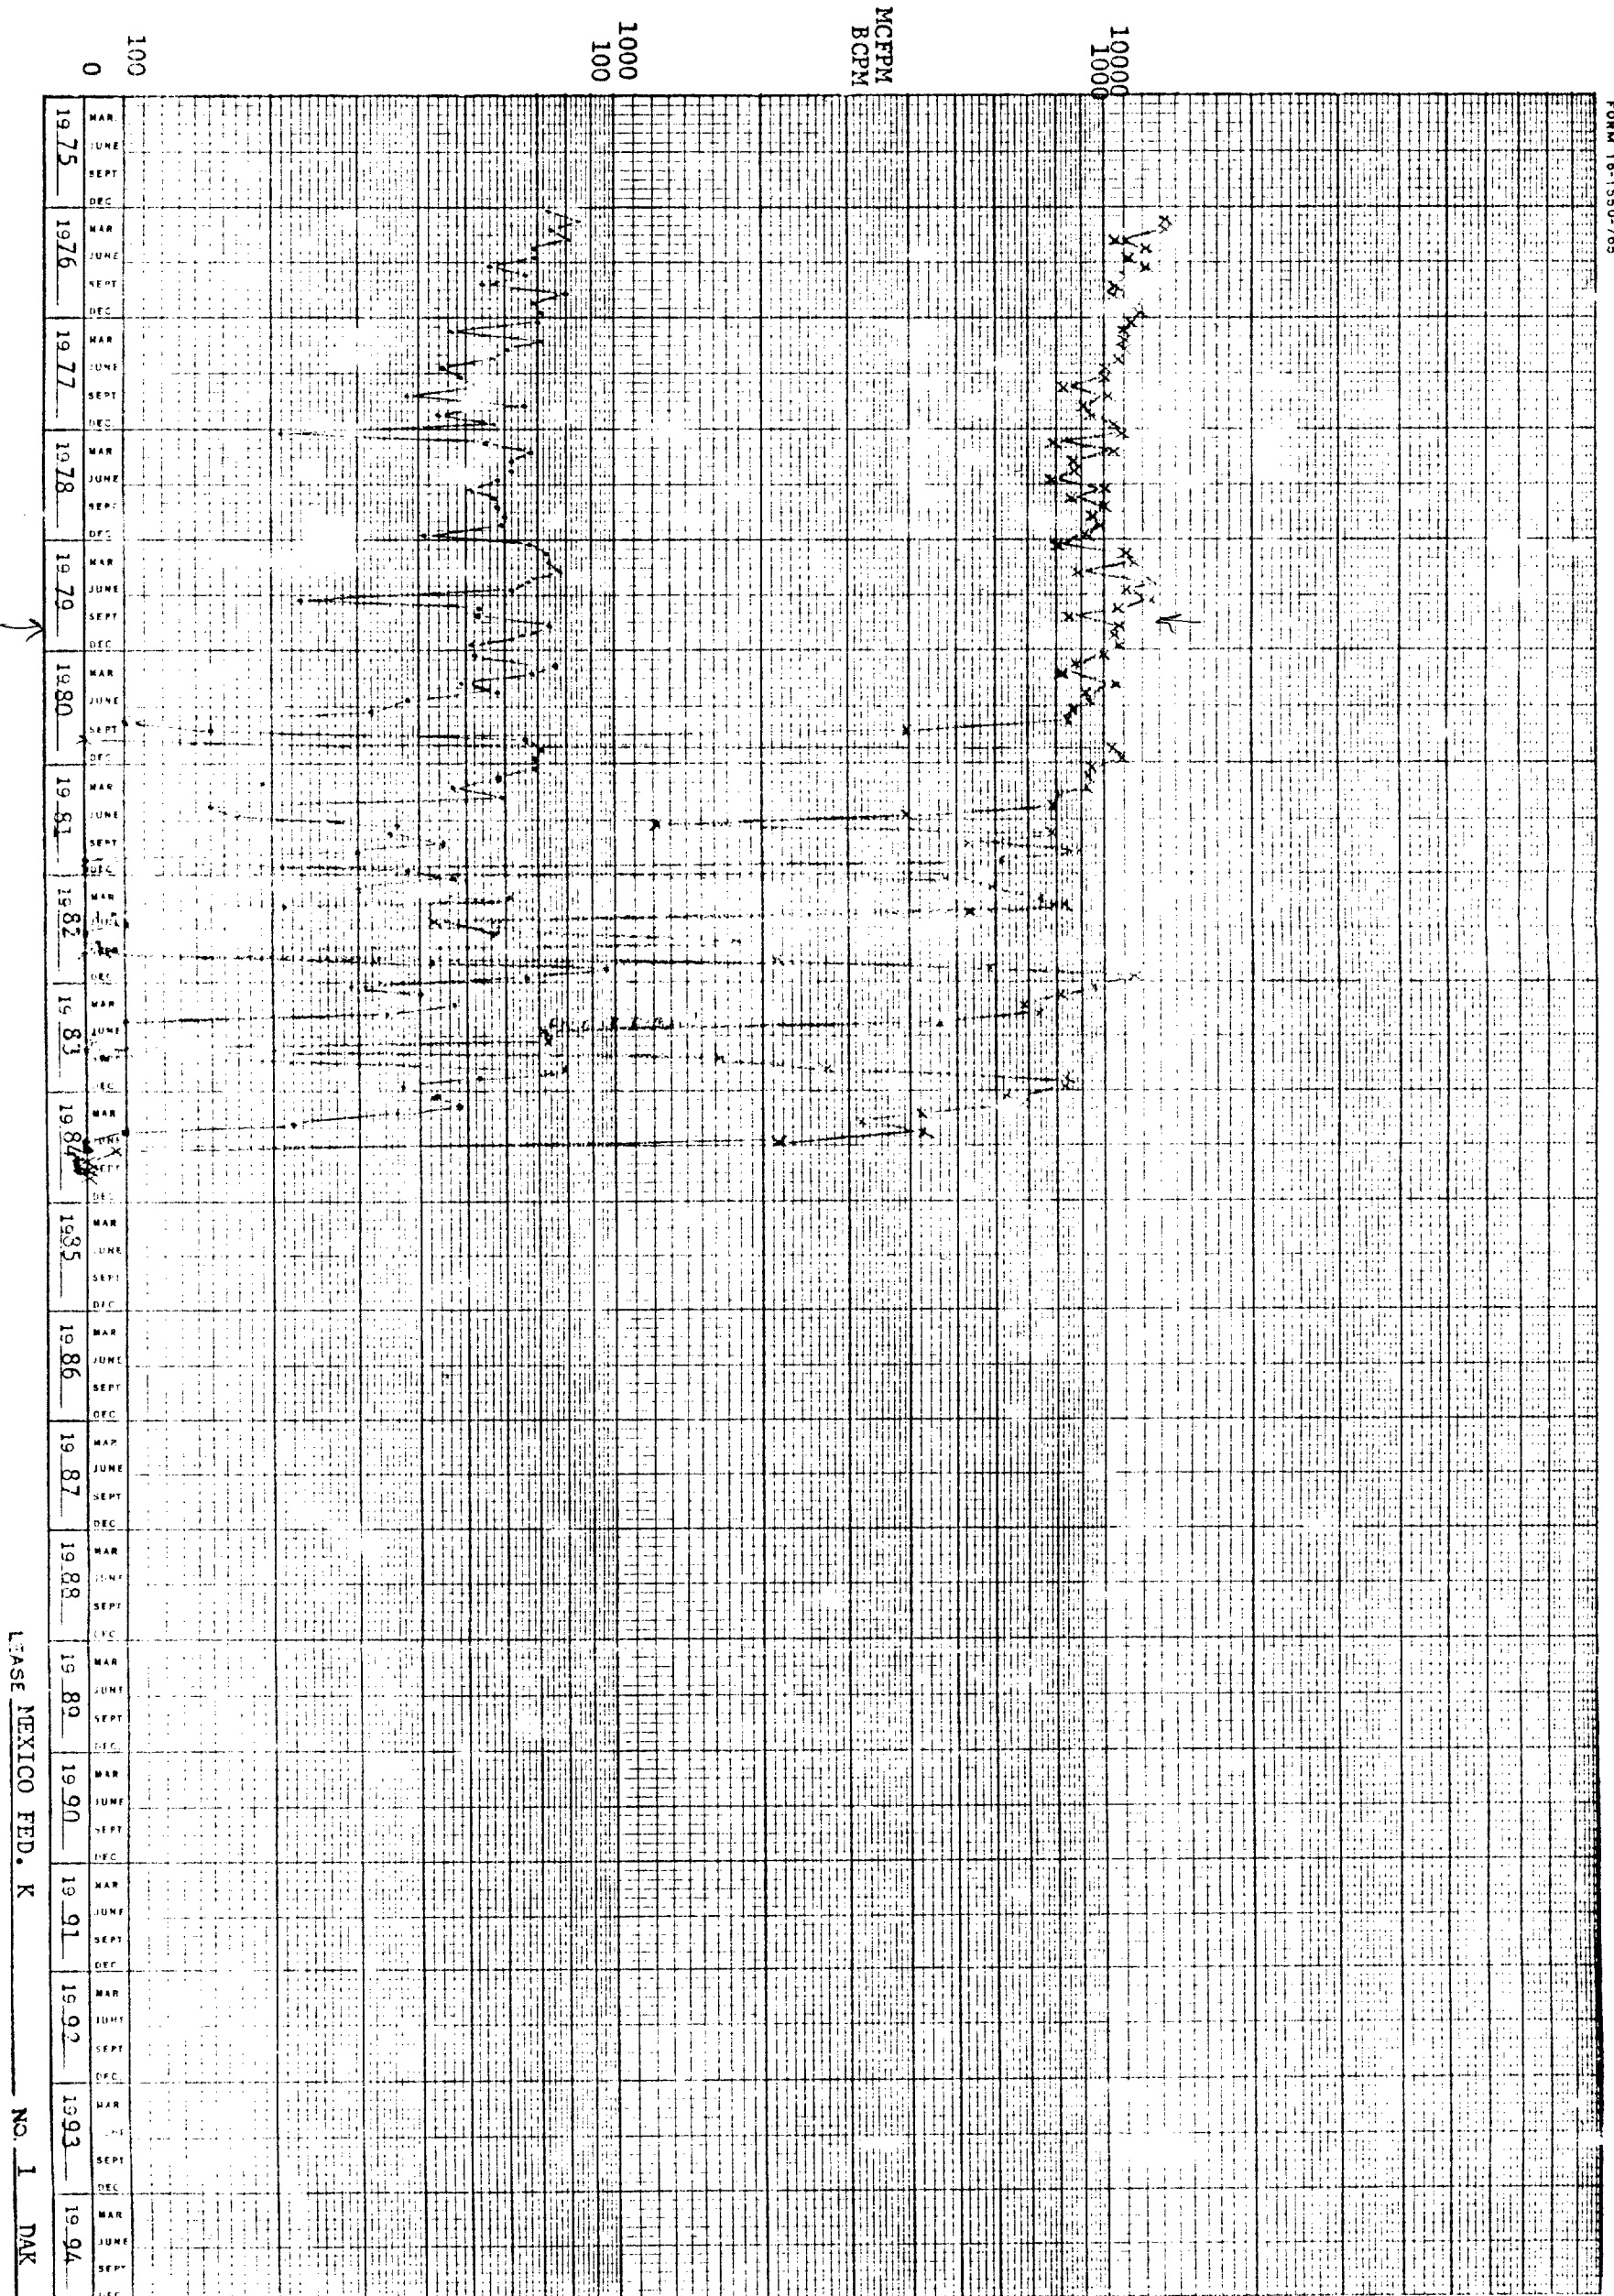

This certification is made to satisfy requirements imposed by a State agency, namely, requirements imposed by the New Mexico Oil Conservation Commission in its Order R-5436.
